## Be Careful - - Stay Alive, Advice To Fun-Seekers as Holiday Nears

Have fun, but be careful. Be alive and healthy when the holiday is over.

That sound advice was offered today to young and old alike as thousands of Mansfielders and Richland county residents prepared to join with the nation's millions in observance of a long Memorial day week end.

The first of the summer's holidays, Memorial day annually sounds the starting signal for automobile trips, picnics, boating and fishing excursions, swimming and bathing parties, hikes, etc.

As regularly as the holiday season comes around, safety authorities warn, it brings its annual needless toll of death and injuries, due in large measure to carelessness, thoughtlessness or lack of understanding of dangers.

State highway patrol officials said today that patrol posts have been alerted and patrolmen's time off has been canceled to provide all possible highway traffic supervision for the Saturday, Sunday and Monday rush of pleasure-seekers.

A condensed version of advice and precautionary words to those planning outings and trips includes these highlights:

Drive carefully, observe all traffic laws and warning signs, don't drink if you drive, don't drive if you drink, exercise extra care on the highway, don't hurry, and don't go if your car isn't in top mechanical condition.

For bathers, these are cardinal rules: Don't swim except at guarded pools or beaches, don't swim alone, don't dive unless certain that conditions are proper for that sport, don't engage in jokes or horseplay that might be dangerous to yourself or others, and never knowingly take a chance.

For fishing and boating parties: Don't overload a boat, be sure and have oars or a paddle as well as a motor on small craft, don't go into small boats or canoes unless you are a strong swimmer and don't go out in larger ones unless they are in charge of competent operators, remember gasoline fires and explosions are more dangerous in a boat than on land, keep an eye on the weather and take a life preserver or buoyant cushion for each person in the boat.

For all kinds of outings, remember that too much sunshine exposure is dangerous, especially at the beginning of the summer and that poison ivy not only can be uncomforable, but serious.

Last but not least, for stay-at-homes, there is such a thing as over-exertion in the hot sun in such places as yards and gardens.

## Heavy Travel Expected

### Thousands Take to Road

More than 20,000 employed Mansfielders today leave work-a-day tasks to start a three-day holiday week end.

Thousands will take to the road — by automobile, train, bus and airplane.

They'll enjoy picnics, excursions to Lake Erie resorts, fishing trips, possibly an air trip to the west coast.

Other thousands will just stay at home, playing a bit of golf perhaps or tending to gardens and lawns.

At home entertainment will include "Hollywood on Ice" at the Coliseum and an Air Forces exhibit of American and captured German war equipment.

**According to John G. Routzon, secretary-manager of the Chamber of Commerce, about the only persons who will be on the job Sunday and Memorial day (Monday) will be theater, restaurant and service station personnel.**

A check of the city's travel agencies gives convincing proof that holiday traffic will be up to its busy pre-war peak. Every mode of travel is being sought and the answer from every agency is that traffic will be "very heavy!"

**TOUR TO NEW YORK**

Mrs. Neoma Moran of Travel Unlimited said Mansfielders are seeking reservations on everything moveable.

"We're only able to get a small percentage of air travel booked," she said. Cruises on the Great Lakes are being snatched up along with a 7-day planned tour of New York City. The tour is being offered to early vacationers.

Twenty per cent heavier than normal traffic is being sought from the TWA facilities in the city, according to Tom Ansel, airline office manager.

**"It's the problem of getting space now for all of the requests," Ansel said. Heaviest traffic will be to Cleveland with some trips booked to San Francisco and Los Angeles.**

Greyhound bus company personnel said they expected "very heavy" holiday traffic with short trippers and vacationers vieing for space. Noticeable increase in bus traffic was noted yesterday when many vacationers set out in all four directions from the city.

**RESERVATIONS SOLD OUT**

Railroads reported the "usual heavy holiday traffic." Pennsylvania officials said pullman reservations from Mansfield were about sold out and that requests were for all four directions.

**For those who plan to drive, resorts beckon with gala opening programs of dancing, boating and swimming. Among those often frequented by Mansfielders are Chippewa Lake and Cedar Point, both of which will open their seasons Sunday.**

And highway traffic will be exceptionally heavy, state highway patrolmen fear. They're keeping their fingers crossed in the hopes that motorists will be cautious. Here's their warning:

"With the enormous traffic expected over the holidays, our advice is for every motorist to drive with caution, courtesy and safety."

For those who prefer to spend a quiet week end at home, there's an entire Monday afternoon memorial program planned at the cemetery, beginning with a parade at 1 p. m.

**REJECT VOTING MACHINES**

COLUMBUS—(AP)—Student officials at Ohio State university don't want a voting machine for campus elections. They voted last night to turn down an offer of Walter C. Stross of Cincinnati, a former student, and to return his $1,200 check. Stross has withdrawn from school in protest of a $5 fee over a new student union.

## New Council Vote Called On Fast Time

### Petitions For Change Increase In Volume

A second attempt to put Mansfield on fast time will be made at the Tuesday night city council meeting.

**Harry Hollingsworth, chairman of a special committee appointed to study the time question, said today that City Solicitor C. J. Kalbfleisch had been asked to draw up a daylight saving time ordinance and that it would be on the Tuesday calendar.**

Council voted on the same issue on March 22 and defeated it by a vote of 6 to 3. At that time, only Thomas Wright and Clifford Knarr joined with Hollingsworth, the measure's sponsor, in voting for it.

Meanwhile, Hollingsworth reported that nine initiative referendum petitions began circulating in the city this afternoon which are designed to have the fast time issue put before the voters in the November general election.

**NEEDS 10 PER CENT**

Ten per cent of the registered voters of the city must sign the petitions to have the question put on the ballot.

"We will circulate the petitions until the necessary names are secured," Hollingsworth said, "and the question will be on the ballot in November, regardless of the action of council Tuesday night."

**Council today received the third petition of the week asking it to put the city on fast time. The petition, which contained 86 names, brings the total of names on petitions favoring daylight saving time received since last Thursday to 363.**

Three letters are also on file in the clerk's office from employes at the Bissman company, the Penn Electric store and the Mansfield Aircraft Products company declaring themselves in favor of fast time.

## *Ohio's Baby Crop In '47 Sets Record*

COLUMBUS —(U.P.)— Ohio had its all-time record crop of babies last year, the state health department's records showed today.

The total was 197,297, more than 27,000 higher than the previous year, itself a new high for all preceding years.

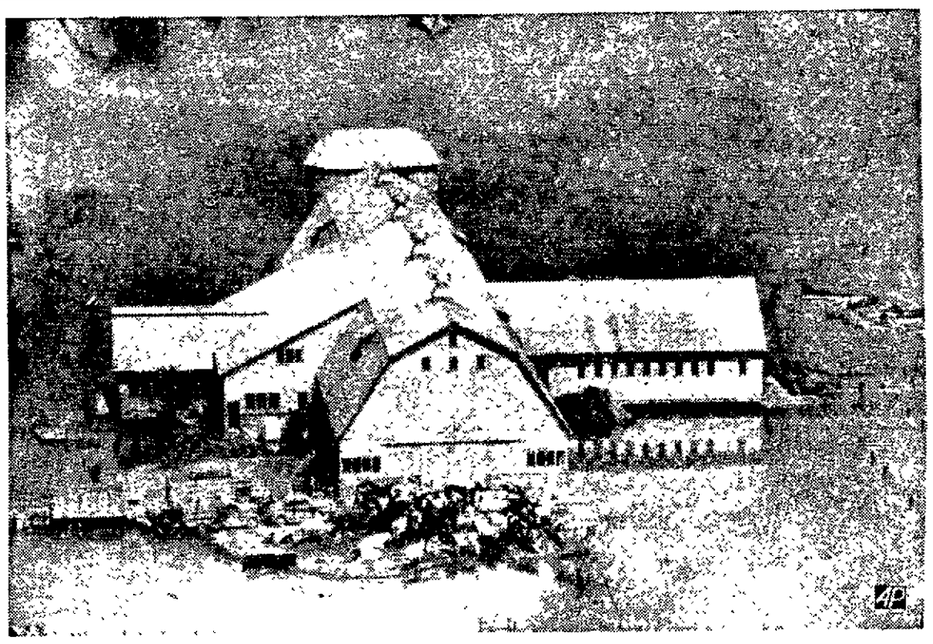

Education officials viewed the flood of births with misgivings. Schools already are so crowded and teachers so overworked that many elementary grades can only go half days.

The Ohio Education association and the state education department said that at least 3,000 new teachers a year would be needed for the next five years to handle the crush.

### Musical Instrument Manufacturer Dies

CINCINNATI —(AP)— Rudolph H. Wurlitzer, one of the nation's top manufacturers of musical instruments, died last night at Christ hospital. He was 75.

Wurlitzer was formerly president of the Rudolph Wurlitzer company. He had been ill for several months.

## Dad Rides 2 To Death

### Triple Tragedy at Marion Investigated

MARION—(AP)—A father bought two bottles of soda pop for his two little girls, made a last telephone call to his estranged wife and then drove his automobile into the path of a 70-mile-an-hour passenger train yesterday.

**Victims of the triple tragedy were 41-year-old Charles M. Gerstenlauer, Marion dry cleaning firm owner, and his two little girls, Sandra, 3, and Gaye, 2.**

Coroner E. H. Morgan of Marion county reserved a verdict pending receipt of reports from the state highway patrol. He did not set an inquest date.

But, authorities generally reported the affair as deliberate.

Deputy Sheriff Ed Fink said Gerstenlauer deliberately drove his machine into the path of an Erie railroad Lake Cities express.

Train Engineer Charles N. Lowe of Marion said the Gerstenlauer car was parked at the crossing as the train approached. He said it moved into the train's path when the engine was 150 feet away.

**Frank Weidemann of Marion, attorney for Gerstenlauer's wife, Elsie, 38, said Gerstenlauer called his wife at 3 p. m., half an hour before the accident and threatened to kill himself and the children.**

That call, investigators found, was made at a filling station less than 300 yards from the fatal crossing.

### 10,000 Homeless In Northwest

## *Portland Fears Worst Flood In 50 Years*

PORTLAND, Ore.—(UP)—Portland braced today for its worst flood in 50 years as rivers fed by mountain snows forced 10,000 persons from their homes and claimed 14 lives throughout the Pacific Northwest.

Roads in the flood areas of Washington, Oregon, Idaho and British Columbia were busy with refugees, their personal possessions piled high on automobiles, trucks, carts or any other transportation they could muster.

**Three thousand persons fled in what amounted to a mass migration from a dozen communities in the Fraser valley of British Columbia.**

Other thousands fled from lowlands within a vast arc sweeping from Canada, through Idaho and westward into Oregon.

The Kootenai river, rampaging along its course from Canada into the United States, flooded the cities of Bonners Ferry and St. Maries, Ida., forcing thousands to take to high ground.

Forecasters warned that the floods had not yet run their course.

Chief Weather Forecaster Robert McComb at Spokane blamed the floods on the cold, late spring.

**"The worst is not necessarily over," he said. "There are worlds of snow still unmelted in the mountains of Idaho, Montana and Canada.**

The weather bore out McComb's statements. Warm thundershowers hit the mountain peaks and sloughed more of the snow water into tributary streams today.

## Auto Strike Pact 'Close'

DETROIT (UP) A settlement of the strike of 73,000 Chrysler production workers is "very close," observers said today as the corporation and the CIO United Auto Workers went into another bargaining session.

Although both sides ended a long meeting last night without any report of progress, chances of an early end of the 17-day-old strike were believed to have brightened considerably as result of the agreement between the General Motors Corporation and the CIO United Electrical Workers on a cost-of-living third round wage increase.

**The GM-UE two-year agreement, announced yesterday, closely parallels the settlement between GM and its 225,000 auto workers.**

It gives the corporation's 40,000 electrical division employes a flat 11-cent wage increase and provides further boosts, or reductions, in pay based on the cost of living.

## Court Delays Rail Strike Legal Fight

### Hearing Date Set June 10 By Judge

WASHINGTON — (AP) — Judge T. Alan Goldsborough today postponed until June 10 a legal battle between the government and three railroad unions over whether a ban against a threatened rail strike should be continued.

**Goldsborough at the same time extended until June 11 a temporary order preventing the unions from walking out.**

This order, signed by Goldsborough on May 10 and already extended once, would have expired tomorrow night.

The three unions and the justice department consented to the new extension of the temporary ban.

Goldsborough gave no reason for postponement of the case. The justice department is seeking an injunction that would prevent a strike indefinitely—or rather, as long as the railroads stay under government seizure.

## U. S. Backs Soviet Plan

### Favors Strong Palestine Action

LAKE SUCCESS, N. Y.—(INS)—The United States revealed today it will give full support to the Soviet demand that the United Nations invoke possible sanctions to halt the war in Palestine.

**The disclosure was made by U. S. Representative Warren R. Austin shortly before the security council resumed its session on the Holy Land this morning.**

A U. S. spokesman claimed that the British resolution, submitted to the 11-nation body yesterday and proposing that the invoking of chapter VII on sanctions be preceded by another truce bid to the warring factions, was not drafted in accord with the American ambassador in London.

Thus, in the few moments of the forenoon session, it rapidly became clear that the split between the United States and Britain over the Holy Land has not been remedied by Britain's change of policy.

The representative for the state of Israel blasted the British resolution as another delaying maneuver favoring the Arabs, immediately after it was presented by Sir Alexander Cadogan.

The Arabs viewed it with reserve and said it was better than the unacceptable Soviet measure.

## Fair Holiday Weather Seen

The weatherman today promised fair skies and moderate temperatures for the Memorial day week end.

Showers are on the weather menu for tonight and tomorrow, however, the forecast said. It probably will be a little cool for swimming, over the holiday, the weatherman added. Swimming pools are scheduled to open Sunday.

The weather bureau's five-day outlook for Ohio follows:

Temperatures will average near normal during the period. Cooler Saturday and Sunday. Warmer Monday and Tuesday. Showers Saturday and again about Tuesday, with total precipitation near one-half inch.

## *Damage to Fruit Trees Feared*

## 17-Year Locusts Sing Song of Life

The song of the periodical cicada sounded through Mansfield today for the first time in 17 years.

The 17-year locusts have arisen from the sleep they started in 1931 to swarm into trees, where females lay eggs in twigs and branches of young fruit trees while males sing a song.

After eggs are hatched, tiny nymphs emerge from the shells and are blown or fall to the ground where they bore their way down into the earth eight to 18 inches, construct individual cells near a tree root on which they feed for the next 17 years.

The insects never appear above ground ahead of the schedule, but in the spring of the 17th year they work their way to just beneath the surface to await the time for emergence. That time now has come.

Their life is short. They live for only three or four weeks. As they mate and lay eggs, they often cause serious permanent damage to young fruit trees.

County Agent George B. Ganyard, noting today the widespread reports of reappearance of the locusts, advised that young trees likely to be damaged should have their branches tied into a compact mass and encased in cheesecloth or other protective material. Little or no pruning should be done on unprotected trees in order that damaged branches may later be removed.

Ganyard said insecticides have not been effective against the cicada, a distinctly American species of locust, although such new insecticides as DDT have not yet been tested in Ohio.

## *City Fund Requests Boosted*

City departments which receive their revenues from the general fund are expected to ask $21,618 more for operations in 1949 than was appropriated this year.

The tentative budget request which will go to city council's finance committee next Thursday requests $614,196 for departments which get their funds from local tax money.

This figure does not include the street, sewer, water, and garbage departments which get revenue from other sources. The total budget is expected to top a million dollars.

**Although the original general fund appropriation in 1948 was $592,578, the proposed budget of $614,196 is actually $57,822 less than the combination of original appropriations and the supplemental appropriations made so far this year.**

City council has appropriated more than $57,000 additional this year, mostly for street improvement work, and it is expected that there will be further supplemental appropriations before the end of the year.

The fact that the 1949 requests are below the 1948 appropriation is explained by the fact that many major repair and capital improvements, held up because of the war, were started or completed last year.

**ASK 2 MORE WORKERS**

Included in the budget are increases of $4,605 for the treasurer's office for a deputy treasurer, a secretary for the sinking fund trustees, a vault and other office fixtures.

The fire department has asked that money for salaries be upped from $110,630 to $103,500 to provide for two additional fire captains, for the No. 5 station, now under construction, and for five more firemen for the same station.

**The proposed budget calls for a $39,000 increase for storm sewers, $35,000 of which is to be earmarked for the construction of new sewers. The proposed amount is $97,000, as compared with $58,000 this year.**

A $3,065 increase for the health department has also been asked. Part of this money is to be used toward raising the salary of the health commissioner.

The police department has requested $2,500 for the purchase of additional parking meters in 1949.

Significant is the fact that the street lighting request is only $2,500, the same as appropriated for 1948. Officials are not contemplating any major improvement of the street lighting system.

The finance committee will study this proposed budget and then put it before council as a whole for its approval.

## Arabs Open New Attack

**BULLETIN**

**AMMAN, Trans-Jordan — (AP) It was announced officially here today that the Jewish quarter of the old city of Jerusalem has surrendered to King Abdullah's Arab legion.**

★

TEL AVIV—(UP)—The Jews reported from Jerusalem today that Arab legion shock troops were attacking furiously under cover of a heavy bombardment in a bid to break out of the old walled city and overrun the modern heart of the war-wracked capital.

**The Haganah radio in Jerusalem said a pitched battle was raging along a narrow sector between the Damascus gate of the old city and the Notre Dame hospice some 500 yards to the southwest.**

Directly in the path of the attacking Arabs the Jewish-held modern Jerusalem was under terrific artillery shelling. The forces of King Abdullah apparently hoped to soften up the new quarter for easy conquest if they could break the Jewish lines before it.

The Haganah army radio said the inhabitants of new Jerusalem had been warned to stay indoors and preferably in reinforced shelters during the shelling.

**CASE CONTINUED**

The case of a 16-year-old boy, charged as a delinquent in the attempted assault of a 15-year-old girl, was continued today in juvenile court.

## General To Avoid Politics

### Would Prefer To Delay Visit

WASHINGTON — (INS) — Gen. Douglas MacArthur told Congress today that he does not feel free to return to the United States until after the coming political conventions because his motives might be misunderstood.

MacArthur made the statement in reply to the Senate appropriations committee's request that he return from Tokyo to testify next week on foreign air requirements in the Pacific area.

**The general said that in "normal circumstances" he would readily respond to the request.**

But the supreme Allied commander in Japan, whose name is expected to be placed before the Republican national convention next month, declared:

"The existing circumstances are not normal and my return at this time, however sincere its purpose, would be misunderstood and condemned by many as politically inspired."

MacArthur added:

"Much that I might be obligated in good conscience to say would lose its effect under the impeaching process of doubt thereby aroused in the public mind."

**PREFERS DELAY**

The general said that "following the settlement of political issues to be resolved next month, I should feel free to place myself fully at your disposal should you still desire clarification of my views on this or any other matter affecting the public interest."

MacArthur emphasized that he already has expressed his views on appropriations needed for the Far East. He said:

"There is little that I could add to what has already been said thereon and is now before the Congress."

**The appropriations committee voted yesterday, 17-2, to "request MacArthur's return—the strongest step it could take short of a subpoena.**

President Truman heartily endorsed the request and said he would welcome MacArthur's return and would decorate the hero of the Pacific war.

## Four Groups Probe 'Voice'

WASHINGTON — (AP) — Four investigating groups—one ordered into action by President Truman—scrambled today to get to the bottom of the Voice of America rumpus.

The drive to pin the blame for shortwave broadcasts which lawmakers blasted as sabotage and slander shaped up this way:

1. Mr. Truman said at his news conference late yesterday that he had ordered an inquiry into the radio programs. The president said he wants to find out who was at fault for the type of broadcast beamed to Latin America. But he noted the programs were not handled by the state department. They had been "farmed out" by the department to the National Broadcasting company.

2. A House expenditures subcommittee headed by Rep. Chenoweth (R-Colo.) opened a public hearing today.

**The group called as its first witness George V. Allen, assistant secretary of state in charge of the Voice of America broadcasts.**

These programs are intended to tell the world of the democratic way of life in this country.

3. In the Senate, where the fireworks started, two groups decided to pool their efforts and conduct a joint investigation.

## Fire Destroys Pioneer Mill

CLEVELAND —(INS)— The picturesque Roy Milling company mill in suburban Strongsville was a charred ruin today following a fire started by children playing with matches.

The mill, dating back to pioneer days, was a total loss. Damage estimates ranged from $7,500 to $20,000.

The building housed what was believed to be the oldest continuous business establishment in Cuyahoga county and one of the oldest flour mills in northern Ohio. Mills had occupied the site since 1822.

*Safety Council Gives Grim Warning*

# Estimates 225 Holiday Traffic Deaths

CHICAGO — (AP) — The National Safety council estimated today that traffic accidents will take one of the heaviest death tolls in the nation's history during the three-day Memorial Day weekend.

**The council estimated that 225 persons will die in highway accidents across the country during the holiday period.**

Last year 206 persons were killed in holiday traffic during a similar three-day Memorial Day week-end. The total was one of the highest on record

The estimate for this year does not include subsequent deaths resulting from injuries suffered during the holiday It applies only to immediate deaths

This year, the council said, there probably will be more automobiles on the road If the weather is good, the council said, the number of vehicles on the move probably will total close to 30 000 000

Ned H Dearborn, president of the safety council, said that the estimated death total could be cut in half with extra caution and courtesy in driving

"While more traffic usually means more accidents motorists have demonstrated on past holidays that the increased hazard can be balanced by increased caution," Dearborn said

'It s up to drivers to protect he living while we honor our war dead"

# *Member of Family of 11 Tops Galion's 99 Seniors*

GALION — A 17-year-old girl was honored at commencement exercises last night in Galion high school. Miss Dorothy McManigell, one of a family of 11, was recognized by Marion E. Shank, superintendent of schools, as having the highest scholastic standards among the 99 members of her class for her entire four years of high school work.

**Her name will be the third to be placed on the Heiser plaque in the high school corridors. Each year, the name of the senior with highest scholastic standing is placed on the bronze plaque.**

Miss McManigell is the eighth in her family to graduate from high school. Three others of her family are in the Galion schools.

Her father, Frank McManigell, is maintenance foreman for the New York Central railroad.

Dorothy has no immediate plans for college. Last Monday she accepted a position at the Home Appliance store.

**CAMERON BECK SPEAKS**

Speaker at the commencement was Cameron Beck of New York, former personnel director of the New York Stock Exchange. He told the seniors that "Nothing takes the place of good, hard work."

Stressing the old fundamentals for a successful life, he emphasized four great needs for successful living: the need of a plan, need of a purpose, need for perseverance, and a passion for right living.

**He cautioned his listeners that nothing takes the place of hard work in his inspirational address, "Leadership for Tomorrow." He was acclaimed as one of the best commencement speakers to appear here in recent years.**

This was his second appearance as a speaker for a Galion high school class, having appeared here 19 years ago. Robert Beegle, class president, introduced the speaker.

**DAUGHTER GRADUATES**

Earl Logan, member of the board of education, distributed the diplomas to the class which included his daughter, Beverly.

Theodore Rehl, a member of the graduating class, played both the prelude and the processional. Girls of the class wore white caps and gowns, while the boys were in the traditional blue used for 20 years by Galion high school.

Rev. Franklin J. Klohn of Grace Episcopal church, delivered the invocation; Miss Barbara Haspeslagh, member of the class, played an organ number prior to the presentation of the commencement speaker, and Rev. L. E. Guffey of the Free Methodist church gave the benediction.

# Club Picks Delegates

## Horoscope

**For Saturday, May 29.**

The lunar transits for this day encourage a definite and quick grasp of a sudden opening to achieve an important objective largely by an astute stroke of ingenuity or creative skill in which the element of surprise may prove an asset. Matters of surprising scope and magnitude may be abruptly moved to dynamic achievement, with surprising crises and enhanced popularity and prestige. Seek collaboration from those in high places. The element of romance and adventure may prove highlights, so dare to deviate from regulation and beaten paths, prudently.

Those whose birthday it is may enjoy a sudden and dramatic about-face in their affairs, in which an unanticipated event or visitation may beget a stroke of lady luck, under which increased assets, expanded openings for exceptional achievement and innovation. Dramatic and thrilling events may swerve affairs into far fields, and with long-range adventure, fulfilled hopes and wishes. Ingenuity, skill, or innovation are in line for spectacular culminations.

A child born on this day has much originality and ingenuity, and should make a surprising success of its life, with an adventurous career.

Leprosy is also known as Hansen's disease.

# Smuts Resigns as Prime Minister After Election Defeat

## Anti-British Party Now In Control

### South African Outlook Changing

CAPETOWN—(AP)—An era of South African history ended today as Jan Christian Smuts, elder statesman of the British empire, resigned as prime minister.

Dr. D. F. Malan, leader of the anti - British Nationalist party, was to form a new government.

FIELD MARSHAL JAN SMUTS

Smuts personally and his united party had gone down to defeat in parliamentary elections which emphasized the increasing separation between South Africa and Britain.

Smuts conferred briefly with his cabinet, presumably to tell them formally that the election results had left him no alternative but to resign, and then went to Governor-General Gideon Van Zyl, in Pretoria, to hand in his resignation. It was accepted as a matter of course.

The governor-general, however, asked Smuts to remain in office while Malan was forming the new government, in order to assure continuity of control of the executive branch of the government. It was believed Malan might need several days to assemble his cabinet, since the Nationalists admittedly had not expected to win a working majority.

The nation still was thunderstruck by the outcome of the elections held Wednesday. Even the victorious Nationalists found it hard to believe that, with the aid of their allies, the smaller Afrikaner party, they would hold a majority of five seats in the new parliament.

**MARGIN SLIM**

Actually, the working majority they will have will be only four, since one seat will be held by the speaker of the new house.

What the policy of Malan's new government will be was not clear. As in the case of most opposition parties everywhere, his leadership has been based on attacking the regime in power.

The victors are strong nationalists, with white supremacy as their major platform. They are pledged to a party platform of secession from the British empire and creation of an indepedent republic. This is not expected to bear fruit quickly but it is a long range possibility.

**Smuts was defeated in his own constituency of Standerton, in the Transvaal, by Wentzel Duplessis, advocate of Afrikaner of South Africa's population, Dutch supremacy over the rest both white and black.**

The margin of Smuts' defeat was 224 votes He polled 3535 to 3,759 for Duplessis. Smuts won his last election in 1943 by a majority of 992.

Returns for all but one seat in a house of 153 members gave the Nationalists 69. Smuts' United party 65, Afrikaners nine, and Labor six. The seats of three Native members were not at stake. The Labor party and the natives back Smuts.

Before the election Smuts' United party held 89 seats to 48 for the Nationalists. Labor held eight, the Dominion party three, and Natives three There was one independent and one vacancy.

**INA DOCKENDORF**

ASHLAND—Mrs. Ina Dockendorf, 58, 427 West Liberty street, died yesterday at 2:45 p. m. in Samaritan hospital following a heart attack suffered Monday.

## Army Cancels Draft Symposium

Because less than a score of persons reported last night for the proposed symposium on the draft and universal military training legislation, the session was not held.

The Army and Army Air Force had scheduled the session at the National Guard Armory. Invitations were sent to more than 550 Mansfield area high school seniors and their parents

## Consider New Bid Request

Mayor Roy W. Vaughn said yesterday there has been some talk of re-advertising bids for a new No. 4 fire station, but no definite action has been taken.

Bids were asked for a new No. station last year, but the bids were double the estimate and they were rejected.

Council voted last year to build the No. 5 station, now under construction on Marion avenue, rather than build a new No. 4 station to replace the present dilapidated building.

The legislators decided in favor of the No. 5 station because they felt that it would give the city more adequate fire protection whereas a new No. 4 station would not

## Jurors Find Man Innocent

George Ragan, 52, of Ridge road, was found innocent yesterday afternoon of attempted assault of a 16-year-old girl.

A juvenile court jury of nine men and three women deliberated about 20 minutes before returning its verdict.

The case opened Tuesday morning and was heard by Juvenile Judge Stuart H. Cramer. Ragan was represented by Attorney H. Eugene Ryan. Prosecutor Theodore Lutz represented the state.

### Crestline Man To Speak Tonight

The Mansfield chapter of the Old Age Pensioners' society will hear a talk by William E. Long, Crestline, a retired railroader, at a meeting at 7:30 p m., today on the third floor at 85½ North Main street.

Long will talk on "The Economic Condition of the Country Today." The meeting is open to the public.

## *4,000 Attend Bowman Festival*

More than 4,000 persons, many of whom were going to the circus or leaving the show, attended the Bowman school lawn fete last night on the school ground, Edward Kissel, school principal, estimated

There were games, concessions, and plenty to eat.

Last night's festival was sponsored by the Mothers' club with Mrs. Forest Pittenger as general chairman. Proceeds from the lawn fete will be used by the club to finance school projects during next year.

Tonight both Prospect and West Fifth street schools will hold their annual festivals on the school lawns.

**COOTIES TO SCRATCH**

The regular scratch of Vin-Snafu Pup Tent 41, Order of Cooties, will be held tonight at Sam Kuhn's cabin on Hardy road.

## Purdy Offers Low Bid on Bridge Job

### City Takes Offers On Clear Fork Work

The Purdy Construction company, Mansfield, submitted the lowest of four bids opened at noon today at the city building for the construction of a new Gass Road bridge near the site of the high-lift pumping station of the Clear Fork waterworks project.

The Roger J. Au company, submitted the only bid to relocate 1,-182 feet of the Gass road.

**Initial calculations showed that the Purdy Construction company bid totaled $25,544, or $1,767 lower than the bid of the Richland Construction company, Mansfield.**

A third bid was received from Wade Stevens. Galion, who offered to do the work for $33,679.

The construction of the new bridge and the road relocation was made necessary because of relocation of the Clear Fork just south of the intersection of the Gass road and the Lexington-Alta road.

The stream bed was moved south to make way for the pumping station and filtration plant and the road consequently had to be moved and a new bridge constructed.

## *Circus Draws 9,000 In City*

More than 9,000 circus fans saw the Cole Bros. show yesterday afternoon and last night, giving the show a "satisfactory" stand in Mansfield, circus spokesmen said.

The big top was nearly filled at night, but the afternoon crowd was light.

Complaints were registered by some sideshow patrons who lost money in a card, or "shell" game. One man reported losing $70 when he guessed the wrong card.

Deputy sheriffs on the lot said they would have closed the game if they had seen it in operation.

The circus left early today for Warren. It will then go to Akron and Canton and into Pennsylvania and New York.

## Pace of Trading Slows as Market Beats Quiet Retreat

NEW YORK—(AP)—The stock market quietly declined today.

In an extension of yesterday's slow retreat, a wide variety of leading issues lost fractions to around a point.

Trading was at about the slowest rate of the week, with the ticker tape standing motionless for minutes at a time.

The case had been settled out of court, but Weaver later asked that the judgment be set aside charging that the settlement was reached without his consent

Weaver, represented by Attorney R E. Hughes, Columbus, based the appeal on questions of law.

Another case, the Maryland Insurance company vs Calvin Hampton, has been settled out of court, a journal entry showed.

The insurance company sued Hampton for $244, alleging that was the amount paid for damages to the car of Gaylord Bahl jr, who had been involved in an accident with Hampton's car

## Seek Recruits For Fighter Squadron

BASING of the 164th Fighter Squadron of the Ohio National Guard at Mansfield Municipal airport should bring cheers from everyone interested in the growth of the city and the development of aviation locally. From the businessman's standpoint, it means a new payroll of several hundred thousand dollars a year for this area.

From the patriotic standpoint, it means that this area will be the training site of a highly important defense unit. The city already has an infantry unit of the National Guard well organized and in operation. Addition of the fighter squadron, along with various reservist groups, reinforces this branch of our permanent national defense program.

The airport will benefit with the erection of half a dozen new buildings to cost well over half a million dollars.

The first big job, of course, is to get recruits. To accomplish this the U. S. Air Force, cooperating with the local advisory committee, is staging a spectacular exhibit and recruiting drive in Central park this week-end.

On the whole, civic and business leaders and city officials are to be congratulated for their efforts to bring the squadron here, when other cities were competing for it, and for the dispatch with which they have moved in setting up the preliminary organization.

## Sunday To Bring Prayers For Peace

IT SHOULD need no presidential proclamation to remind those millions of people who believe in the efficacy of prayer that now is a time when there is appearance of great need for Divine guidance.

It is at the request of Congress that President Truman has proclaimed Memorial day as an occasion for "nation-wide prayers for permanent peace"—thus giving recognition to the familiar motto, "In God We Trust," which appears on coins that sometimes pass into channels which seem strangely at variance with this expression of religious faith.

While there will be widespread observance of this request, its inspiring center will be in Arlington national cemetery in Washington, where annual memorial services will be held at noon Sunday, sponsored by veterans' groups.

There a keynote prayer will be given by Maj. Gen. Luther D. Miller, chief of Army chaplains. This prayer reads in part: "We turn to thee, o' God, to ask that in Thy good time peace may be restored to all nations of men. . . . We ask that intolerance, bigotry and creed, as between nations and men and races may be overcome by the force of Thy will."

A thought expressed in support of proclaiming Sunday as a day of prayer for peace is that a nation's armament for peace must be spiritual as well as material, and that this is a responsibility of the people who compose the government.

## Virden To Stay In Government Post

SELDOM has there been a more nonsensical episode in Washington than the effort of Congressman Fred L. Crawford, of Michigan, to oust John C. Virden, capable Cleveland industrialist, from his post as special assistant to Secretary of Commerce Charles Sawyer.

It appears that Virden's 23-year-old daughter, Euphemia, is employed in the Washington bureau of the Russian news agency, Tass, and, in the opinion of Congressman Crawford, this should disqualify her father from holding a responsible government position.

So Mr. Virden submitted his resignation, which immediately brought such a wave of public resentment against Crawford's action that the resignation has been withdrawn.

There has never been any question as to Mr. Virden's sterling Americanism, and in his letter of resignation he described himself as an "almost violent" foe of communism. He had also previously disavowed his daughter's communist leanings.

Happy are those parents who are not at some time embarrassed or humiliated by the acts of a child, but that they should be required to undergo other than mental torture because of the derelictions of an offspring is not in accord with Biblical teaching or modern ideas of human relations.

## Happy Birthday To Dionne Quints

FOURTEEN YEARS ago today the news broke upon a depression-weary world that five baby girls had been born to the Dionne family in Callander, Ontario. It is something of a medical record that all five of the little girls are still living, since the hazards in multiple births above triplets are such that not a great many quadruplets, and very few quintuplets, all survive.

The fact that one other set of quints, born in South America since the Dionne births, are also all still living speaks well for the progress of pediatrics—the science of child care.

A great deal of publicity attended the first few years of growth of the Dionnes and a scientific study of their development will no doubt be included in medical annals for years to come. It is quite possible, too, that the large sums of money derived from the publicity which surrounded the little girls helped provide the expert attention which assisted in their survival. Publicity frequently does more good than it gets credit for.

## Baseball Pitchers Then and Now

BASEBALL followers are wagging their heads at the falling off in pitching. The leaders of other years, Blackwell, Newhouser and Feller, are not equalling past standards, and few new stars are coming up.

If the fans think, however, that today's pitchers are bad, they should compare the early days of baseball, when games had scores like 38 to 23.

A Missouri veteran complains about the house built for him four months ago. He says the walls and basement are cracking, the garage leaning—and that "nothing fits"—but, just think, it was built away back four months ago!

## Army Has 9,000 Commissions Available

WASHINGTON — The "new" Army offers career officers the brightest prospects in United States military history and this point is being stressed by the men seeking to build the service to formidable peacetime strength.

In the post-war officer integration program 11,322 wartime officers, 60 per cent of whom started as enlisted men, were given permanent regular Army commissions.

The Army still has 9,000 vacancies for regular commissions and plans to fill these over a 10-year period. This, plus the vacancies created by normal attrition, will permit 1,800 appointments, a year.

Instead of the "West Point" or else" policy which prevailed before the war, the Army now is able to offer commissions to enlisted men, reservists, national guardsmen and graduates of civilian colleges.

Moreover, the increase in pay for which Army officials long have been plugging is due for favorable congressional action.

* * *

**"Able Cain.**

Senator Harry P. Cain (R), Washington, is the man principally responsible for the new rent control bill, and its "break" for tenants.

Cain, alone, withstood a last-minute attempt to weaken the 1948 rent law by giving stronger powers to the 660 local rent advisory boards which in many sections are admittedly pro-landlord.

The youngish Washington senator battled single-handed against House conferees who were determined to write local autonomy on rent boosts and decontrol actions into the law.

Cain, after a bitter, two-and-one-half-hour night session with the House members on the conference committee, succeeded in winning them over to the compromise arrangement under which the United States emergency court of appeals is the final authority on area-wide rent actions.

Even the housing expediter admits that Cain did a good job.

* * *

**Anti-Jim Crow Issue.**

As the Senate gets to its much-heralded showdown on President Truman's civil rights program, trouble centers around the fact that the handling of homicide cases is in the province of the states, and some think it will be hard to establish, to the satisfaction of he Supreme court, that a lynching is substantially different from any other homicide.

Senator James O. Eastland (D), Mississippi, leading the committee fight for the southern bloc, reportedly has won some unexpected reinforcements as a result of the constitutionality squabble.

Anti-poll tax legislation is out of the rules committee and ready for action. However, a growing log-jam, plus the GOP disinclination to tackle the matter first may combine to shelve the civil rights fight for this session.

* * *

**Washington Co-operation.**

The Republican Congress and Democratic administration are co-operating remarkably when it is considered that a presidential election is approaching in which there is a good chance that a Republican will take over the White House.

In such a situation, it is only natural that the party controlling Congress would be loath to approve administration requests when the "outs" may well be in to write their own ticket within a few months.

Look at the striking example of co-operation, however, evidenced in rushing through foreign aid legislation.

Also Congress is expected to approve a short extension of the terms of atomic energy commission members, and probably would endorse a presidential statement on military aid for the European western union.

## Looking Back

**Twenty Years Ago Today**

**Monday, May 28, 1928**

Seventieth Congress adjourned with Boulder Dam bill as part of unfinished business.

Members of graduating class of Richland county normal school held dinner meeting at Women's club.

Meeting was held in Lucas high school to discuss project of establishing new bank in that village.

Daughters of Union Veterans placed four large flower urns at corners of stadium in Mansfield cemetery.

Son was born to Mr. and Mrs. Carl Daum, Mansfield R. D. 7; daughter to Mr. and Mrs. Louis Rankron.

Mrs. Elizabeth Emmons was injured by fall at her home, 9 Glenwood heights.

P. E. Harrison moved from 110 West Second street to South Boulevards.

Jack Horner club of Friendly House, under supervision of Miss Louise Emery, held final meeting of season.

**TODAY IN HISTORY**

King Leopold of Belgium surrendered his army of 500,000 soldiers to the Germans on May 28, 1940. The Belgian army had been fighting alongside the Allies in the Flanders "pocket," where they had been trapped by Hitler's forces.

## Dave Boone Says:

NEW YORK'S district attorney continues to bring in alleged rent gougers people who demand bribes even from war veterans before letting them have a place to live. The more I read about 'em the more I hope everybody handling such cases takes the precaution of wearing rubber gloves.

* * *

**One fellow, according to the district attorney, was out on bail for one case of gouging and immediately stuck up a war veteran for his automobile before he would lease him an apartment.**

* * *

Well, they'll probably all get off with fines that won't bother them at all or be freed under that old judicial run-around, the suspended sentence, which is like saying "I give you two years in jail which you won't have to serve."

* * *

If these people are as guilty as charged I'd like to see 'em not only assigned quarters in a hoosegow but forced to give the warden a sedan and pay $2,000 to the turnkey before being allowed to enter a cell.

## Some Unkept Promises

By THOMAS L. STOKES

REPUBLICANS in Congress suddenly have waked up, at the eleventh hour, to a political fact of life that disturbs some of them.

With less than a month before their national convention at Philadelphia, where they must pronounce in due course on their accomplishments, they still have not put on the books their modified social-welfare program which they offered to attract progressive and independent voters.

Nor has any of their civil-rights program — anti-poll tax, anti-lynching, FEPC—been pressed toward a conclusion. These, of course, would meet a filibuster in the Senate from southern Democrats, and this offers an excuse in the last-minute jam now faced.

**But these measures could have been pushed forward earlier and an effort at least could have been made to break a filibuster, as some Republicans urged.**

Embarrassment arises for Republicans on both the social-welfare and civil-rights programs because the party pledged itself to both in their 1944 platform. For two sessions they have controlled Congress and have had both the time and opportunity to do something. Unless something is done in the remaining days before the convention, their only recourse is to repeat the platform pledges of four years ago. They won't be able to point to a record of achievement.

The obstacle now is that there are so many essential matters waiting for action—10 appropriation bills, the draft, the reciprocal-trade-program extension, a displaced-persons measure, a farm bill, the oleomargarine bill, and others, most of them controversial as well as pressing.

Broadly, the Republicans' social-welfare program embraces housing, health and education measures, extension of social security coverage, increase in the 40-cents-an-hour minimum wage. Health and education bills have passed the Senate under the direction of Senator Taft, but the House has done nothing.

Social security expansion still is being studied in the House ways and means committee, with no prospect of action now. Meanwhile, to the contrary, the House has passed a measure to remove several hundred thousand persons from social security coverage, and also has slashed appropriations for the administrative agency to an extent that not only cripples the present program but impedes the necessary groundwork if the program is expanded at some future date.

* * *

**Talk, But No Action.**

REPUBLICANS are sponsoring measures to boost the minimum wage, but the tendency has been to include also provisions that would remove many persons now covered by that law and would otherwise restrict its operation.

Of all needs at this time involved in the social-welfare program, that of housing is perhaps the most acute and also the most demanding, it would seem, from the political standpoint, because of the failure to provide adequate and decent homes for war veterans.

Again, for the third time, the Senate has passed the Taft-Ellender-Wagner bill to relieve this deplorable situation. But the House leadership is balking because of the bill's provision for $500,000,000 over a period of five years for grant to local communities for public housing for low-income groups which is only a minor feature in a measure designed principally to encourage home building by private real-estate interests.

**Speaker Martin (Mass.) and Republican floor leader Halleck (Ind.) and chairman Wolcott (Mich.) of the banking and currency committee tried to get Senator Taft to drop the public-housing provisions as a price for passing the bill, but he refused flatly.**

The obstinacy of the House leadership is hard to understand unless you know the power of the real-estate lobby here.

This and other Republican failures in matters so close to the public interest offer ammunition to Democrats, but the latter, unfortunately, are so hopelessly split and so spiritless that they offer little competition. The public is helplessly caught between.

## Facts Catch Up With Candidate Stassen

By DREW PEARSON

WASHINGTON—One thing that set Harold Stassen back in Oregon was the impression that he was trying to be all things to all men. You can get away with this for awhile, but eventually it catches up with you.

For instance, during the Senate debate on the Taft-Hartley Act, Stassen opposed the bill, much to the embarrassment of Senator Joe Ball of Minnesota who had been appointed to the Senate by Stassen.

**In fact, Stassen's views were effectively quoted by Senator Pepper of Florida in fighting the bill on the Senate floor. But more recently, Stassen has gone into reverse and is telling the electorate what a fine thing the Taft-Hartley Act is.**

Martha Taft, astute wife of the senator from Ohio, tells friends that during the Ohio primary, a Stassen campaign representative came to Taft's headquarters and naively complained that Taft was unfairly criticizing Stassen as a compromiser. To which the Taft people replied that Stassen was saying some pretty bad things about Taft.

"But," replied the Stassen representative, according to Mrs. Taft, "those things about Taft are true."

Real fact is that up until recently Stassen has carved out quite a name for himself as a liberal, though at the same time gathering in campaign contributions from meat packers, grain operators and some of the biggest businessmen in the Northwest, to say nothing of his friends among the U. S. Steel Corporation.

Note—When called upon to take a stand on military training, Stassen said in effect that he favored "something a little less than compulsory and a little more than voluntary."

* * *

**Industrial Statesmanship.**

RUMORS are current both in Wall Street and labor circles that the big boys of industry got together for another "Waldorf conference" and decided not to give labor another round of wage increases beyond the 9-11 cent boost handed out to the meat packers and General Motors.

If so, the industrial leaders might well put their heads together and exert some statesmanship regarding their labor relations generally, especially their tendency to penalize non-striking unions. At present, the Wall Street policy is to favor the labor leader who waves the big stick and penalize the union that plays ball.

Last June, for instance, Ben Fairless, head of U. S. Steel, together with the Mellon and Hanna coal interests, gave John L. Lewis the biggest wage-pension bonanza in history.

**It put the coal miners at the top of the wage-ladder, thereby causing jealousy among railroad men—hitherto the aristocrats of labor—and the steel workers, led by Lewis's old rival, Phil Murray.**

Later, when it came to the railroad brotherhoods' turn for an increase, they got only 15 cents an hour. Most of them accepted this award. Three unions called a strike. Behind that strike call, in part, was the previous large wage hike handed out by Fairless, the Mellons and the Hannas to John L. Lewis.

Phil Murray was also on the spot. His steel workers' two-year contract had one year to run, but his union members were restless. They had seen the big hike won by John L. Lewis.

* * *

**Fairless vs. Fairless.**

HOWEVER, the same Ben Fairless who had given Lewis his wage increase plus pension, turned round and gave Murray nothing. Fairless claimed the cost of living had not gone up recently, reminded Murray that the steel workers' contract had another year to run.

Thus the steel workers did not even get the 15-cent wage boost won by the RR brotherhoods. However, they accepted this with good grace, stuck by their contract, continued working. Also, at Boston, they took a firm stand against communists and for the Marshall Plan.

Actually, it was not Ben Fairless who made the decision to turn down the steel workers. It was Enders Voorhees, a tough New York Dutchman, who acts for J. P. Morgan as chairman of the U. S. Steel finance committee.

Fairless has followed a fairly liberal policy with labor. But with the death of Tom Lamont, one of the liberal influences inside the Morgan firm, U. S. Steel's policies have veered reactionary.

**Having piled up the greatest profits in all history, their much-ballyhooed price decrease was a mere drop in the bucket.**

Since Murray was turned down, however, the cost of living has turned up. Last month it shot up 1.6. Therefore, if U. S. Steel should use this as an excuse to offer voluntarily to put across the 9-11-cent wage boost agreed on by the big boys, it would have an electrifying effect on all labor.

Not only would it show that the union which doesn't strike gets recognition in the end, but it would have its effect on all labor troubles at a time when the world is watching the USA, and when production under the Marshall Plan is more necessary than ever before.

## Capable Congresswomen

By MARQUIS CHILDS

SOMEONE the other day went to the trouble of discovering a typical member of the House of Representatives by averaging out ages, weights, heights and so on. The result was a pretty average middle-aged individual.

**It may be because the average is so very average that the women members of the House stand out in distinguished contrast to the great gray mass of males.**

Because the prejudice against women in high office is still a factor in American politics, they just naturally have to be better than the men. I believe a statistical average of the awareness, the ability, the intelligence of the seven women as set against the 425 men in the House would show that the ladies have an overwhelming advantage.

Two of the women members are engaged just now in extremely interesting political contests. One is Margaret Chase Smith of Maine, a Republican, and the other is Helen Gahagan Douglas of California, a Democrat.

Because she had the courage of her liberal convictions and refused to swallow the third-party line, Mrs. Douglas is in the middle of a three-way fight in her district in Los Angeles. The Wallaceites tried to make her take a stand against the European recovery program and, when she said no, they entered a third-party candidate against her.

Mrs. Douglas is running in both the Republican and the Democratic primary, which is possible under California law. At the same time, with the primary on June 1, she is fighting on the floor of the House for the issues she considers most important.

First on this list would come inflation and the cost of living. In season and out, Mrs. Douglas has fought for some easement of the pressure that is working such hardship on millions of salaried families all over the country, and especially in her own district.

Once she came onto the floor with a market basket full of groceries and with a sales slip showing what the cost as compared with a sales slip of a year before. It was a dramatic demonstration of what the H.C. of L. really means to the housewife.

Mrs. Douglas was one of the little band in the House to stand up against the Mundt bill to outlaw communism in America — a bill that, in the opinion of many, would coerce all independent thought.

* * *

**Aspires to Senate Seat.**

IN MAINE, Mrs. Smith is in a contest that is equally tough. She is running for the seat in the Senate made vacant by the retirement of Maine's elder statesman, Senator Wallace White. In the primary, equivalent to election in Republican Maine, she has two formidable opponents. They are Horace A. Hildreth, the present governor, and Sumner Sewall, a former governor.

Those who know Maine say it is a close race, with the odds slightly in favor of Mrs. Smith. She is waging a vigorous campaign, practically commuting between her home state and Washington in these crowded final days of the congressional session, with the Maine primary coming on June 21, the date the GOP convention opens in Philadelphia.

**Being a Republican from Maine, Mrs. Smith is considerably more conservative than Mrs. Douglas, a Democrat. But with her conservatism goes a sense of responsibility which is a lot more than mere standpatism.**

Thus, the other day, she pleaded with the House for a revision of the social security program which would correct great injustices that exist today. As Mrs. Smith said, study after study has pointed out the need for a drastic overhauling, yet nothing is done. She was particularly concerned over the plight of the aged who are trying to exist on pitifully inadequate old-age assistance.

Congress would be improved, in my opinion, with a higher proportion of women members, particularly if they had the qualifications of Mrs. Smith, who is now serving her fifth term in the House, and of Mrs. Douglas, who is running for a third term.

I hope they are both returned to Washington so that the Congress and the nation can have the benefit of their practical, responsible approach to the big problems that confront us all.

## One Man's Opinion

—By WALTER KIERNAN

RUNAWAY inflation is still with us . . . 14 men on Long Island each offered $10,000 for a wife.

* * *

There was a time you could get a wife for the license fee and a lien on your wages . . . now they want more than baby sitters and in advance.

* * *

**Ten thousand sounds high but it's 53 thousand cheaper than a Stock Exchange seat and loads more exciting . . . There are no quotations on husbands . . . evidently they are in long supply and a drug on the market.**

* * *

Particularly since the news broke that husbands are better laundresses than their wives . . . What woman wants a better laundress for a husband?

* * *

The story is that since the first coin-in-the-slot laundry opened 50 per cent of the customers are men . . . They just can't seem to resist a slot machine.

## 'Gist of the Matter'

By CALVIN A. BYERS

"DO YOU know whether you are made of the right stuff? Do you have the best material in your bones and muscles? Does the gray matter of your brain contain the elements that are necessary for a keen alert mind? Does your system contain the minerals needed to keep teeth sound—nerves steady?"

In a message to "young folks", Arnold P. Yerkes, supervisor Farm Practice Research, International Harvester Co., has boiled down the present day knowledge of "Soil—A Foundation of Health." Briefly, here are the high points:

For a long time it was thought that four elements, calcium, nitrogen, phosphorus, potassium, with water (hydrogen and oxygen), made up our bodies. However modern analysis shows more than a dozen others—among them, iron, cobalt, copper, zinc, chlorine, sodium, magnesium, manganese, sulphur, silver, boron, nickel, aluminum, arsenic, fluorine, iodine, carbon, and various vitamins.

We buy medicines to meet deficiencies. Lack of any one of these necessary elements causes disease. For instance, lack of iodine causes goiter; lack of iron, liver trouble, etc. A half billion dollars yearly goes for such anti-deficiency products, over drug-store counters, and this doesn't include medication.

A "good diet" isn't enough. If you are to have all the elements your body needs, they must be present in the soil from which the food is produced. The only real health insurance is COMPLETELY FERTILE SOIL. It is entirely possible to "starve to death on a full stomach."

The spectograph—a modern instrument for detecting every element in any sample of soil, food, feed, meat, manure, urine or fertilizer—was used in wartime for purposes of bringing about death and destruction. Surely, in peace, the world is entitled to have such knowledge used for human health and restoration of the soil.

Once our soils were virgin—rich in all elements. Not all alike, certainly, but mostly adequate. What did we do? For generations we have grown crops and animals on our farm lands and shipped them to the cities. With them, at first, went the minerals that nature meant them to contain. But in a hundred years or more of dumping sewage into the sea, or onto garbage dumps or ash heaps, vital minerals are gone. And deficiency diseases are on the increase . . . cancer, heart trouble, etc.

"Orthodox" farming based on partial truths, is no longer adequate. We need the facts. Two billion dollars is said to have been spent on atomic research bent on destruction. One tenth of one percent of this amount might be well spent on learning how soil atoms might maintain health.

## As Cerf Tells It

John Bragaw, of Washington, North Carolina, hired a brick mason who stuttered very badly. In a moment of idle curiosity, Bragaw asked him, "Sam, have you got a middle name?" "N-n-n-no, sir, Mr. John," answered Sam. "I u-u-used to have one, but I n-n-n-never had no time to use it."

# Gives Tips On Safety

In this age of machinery on the farm, the best safeguard against accidents is "thinking," W. E. Stuckey told a group of farmers and their families Wednesday night.

The meeting, held in the courthouse, was attended by 50 persons. It was sponsored by the Richland county extension service.

Stuckey, farm safety specialist at Ohio State university, spoke on farm safety and showed movies and slides on the subject.

**Stuckey said that a member of one out of every six farm families has a serious accident each year, according to records.**

He said less than 10 per cent of the farmers in Richland county are covered by Workmen's Compensation law. The law provides that farmers need only to make application to be covered by the law, Stuckey pointed out.

Slides and movies depicted the various types of farm accidents and how to avoid them were shown.

**TAR IGNITES**

Firemen from the No. 3 station were called yesterday to Lamberton street where a street department tar kettle had caught fire. By the time the engines arrived, however, the fire had been extinguished.

**BRIDE'S OVER 90**—Wedding bells rang at Brushton, N. Y., for Clarence McGee, 37, and Mrs. Eliza Murray, one-legged widow who says she is over 90. They are seen in McGee's wagon. It was to be McGee's first marriage. Mrs. Murray, married once before, has three sons and three daughters, the oldest 69.

# *Congress Learns Average Communist Leader Is 46*

WASHINGTON — (U.P.) — The House foreign affairs committee has come up with a directory of 506 communist leaders in all parts of the world except Russia and the western hemisphere.

The 129-page booklet, neatly indexed by countries, is the work of a subcommittee headed by Rep. Frances Bolton (R-O.). She said it gives a composite picture of the biggest non-Russian communists in Europe, Asia, Australia and Africa.

Mrs. Bolton said the committee had difficulty digging out its information. For one reason or another, she explained, communists are publicity-shy — except when it suits their purposes.

Your average communist (says the booklet) is about 46 years old and is a dyed-in-the-wool "professional revolutionary." About one in five is a university man. Nearly half of the historic 506 have been in jail. One out of three has been a communist journalist and about one of four an active labor leader.

"Twenty per cent of them today hold cabinet posts in various governments while 40 per cent are members of their national legislative bodies," the booklet says.

Practically all have been working at communism for a long time.

"It is a striking fact," continues the booklet, "that slightly more than one-half of these have been avowed communists since 1922 or earlier."

## Senior High Grads to 'Trip The Light Fantastic' Tonight

By ANN SCHOENMAN

PROM NIGHT! It has finally arrived for the seniors at Mansfield Senior high school. The night that they have been dreaming and planning for most of their school life is now a thing of reality. This will be the first all night party sponsored by a graduation class in the history of Senior high school. This night is more or less a trial to see just how it goes over.

The dinner that will be served by the school at 6:30 p. m. will be a meal that can be remembered, for the staff has promised to put themselves out for this one. The executive committee chose the dinner from three menus presented them. The one that finally suited all was relishes, creole baked ham with fruit sauce, french fries, corn, finger rolls and peach marmalade, bing cherry salad, chocolate ice cream sundaes, white cake with chocolate frosting and coffee or milk. Sounds good, doesn't it? Fruit punch will be served at the gym. John McCarrick had the headache for running the committee on the seating problem in the cafeteria. Serving with him were Marilyn Pendleton, Dorothy Zivkoff, Betty Calmes, and Eldon Roberts.

**Paul Ringley and his orchestra will play for the couples who will attend the dance from 8:30 p. m. until midnight. After several elections the class decided on this orchestra from Massillon to play for the occasion. Ruth Ann Buseh, chairman, and Dave Marks were the two chosen to find a good orchestra.**

For anyone that doesn't know how to dance (or doesn't care to) there will be cards, pictures taken of the couples by Richard Leech with the Carroll studios in Ashland, and television sets that will leave the seniors marveling over the miracle of TV. Later in the evening the program committee, Nancy Osbun, chairman, Gust Angelas, Dave Ganyard, Marianne Harry, Carolyn Thompson, and Elmer Croushore, have planned a floor show starring Mansfield talent.

The decorations for the dance will be something out of the ordinary. Danny Bishop, chairman, Dave Drumm, Roy Waxler, Catherine Donley, Marian Haring and Colleen Messmore will see to that. For the cafeteria Bernice Bauer, chairman, Bob Cramer, Lloyd Geugold, Barbara Conner, Pat Lindbeck, and Marilyn Massa had to find something outstanding.

At midnight buses have been rented to take the seniors to the Madison theater where they will see "The Mating of Millie." It stars Glenn Ford and Evelyn Keyes and promises to be just the thing for prom night. There will also be a cartoon, Leon Errol in "In Room 303," and a community sing reel, "Old Buttermilk Sky," led by Jack Dickson.

**The Richland Recreation Center will be the next stop for the graduating class of 1948. They will go there at 3 a. m. for a breakfast which will top off the evening. It will include fruit juice, bacon and eggs, sweet rolls, jam, and coffee or milk. Harvey Anderson, manager of the Richland Recreation, has arranged with the cook to "rise and shine" at this early hour to fix the breakfast.**

The Mr. Anthonys of the class that planned this big party are Marilyn Beattie and John Parks, co-chairman. They have worked on this party since the middle of the winter months when the announcement of the chairmen was made. Ralph Juniper, senior class adviser, helped all of the committees in their arrangements and plans to see that they would be a reality and not just a wistful dream.

The junior class members have added their bit to help this dance go over in a big way. They will furnish the cloak room for the banquet and dance. Miss Martha Weimer, junior class adviser, has chosen Jean Arlyss Robinson, Dick Butts, Betty Garver and Dick Van Vorris to take care of the seniors' coats.

**Peggy Cole is shown above as she puts on the final dab of perfume for the prom. Her little sister, Becky, looks on, starry-eyed, as she dreams of the time in her life when she will be preparing for just such a night.**

**The biggest night in the life of every senior has arrived. Prom night! Pictured above is part of the decoration committee for the gym. Barbara Koroknay is shown risking her balance painting as Joyce Swaney acts as foreman for the job. Carolyn Poorman, standing, and Elsie Kinkel are putting some finishing touches on the archway. Marian Haring holds the ladder for Dave Marks as he staples down the roof of the Spanish patio.**

**This is a scene that will be repeated over and over again in many Mansfield homes tonight as the seniors prepare to depart for the all night party sponsored by the graduating class of 1948. Left to right, Eldon Roberts helps Colleen Messmore with her coat as Marilyn Beattie eagerly unties the box of flowers her escort, Norman Henry, brought for her white chiffon dress. Colleen's dress is pale blue eyelet.**

# Western German State Plan Blocked By French

By WALTER LIPPMANN

In the long run we shall be glad, rather than annoyed, that the French government has taken a firm stand against the immediate formation of a western German state with its capital at Frankfurt. For the economic advantages which might be gained by establishing such a German government are slight and theoretical compared with the divisions and disorders which would surely be caused inside Germany and throughout Europe

The Truman administration is in no position to deal with the consequences It is unprepared to deal with them In a very real sense it has no moral right to take so grave a commitment in an election year, and to present the incoming Republican administration which would probably take a different line, with an accomplished fact.

**To establish a German government in Frankfurt is to invite the Russians to establish another German government in Berlin. Now it is often said by supporters of the Frankfurt project that the Russians intend to establish a German government anyway.**

Perhaps, thus far the Russians have been astute enough not to be the first to do this We ought to be as astute as they are For whoever is the first to establish a German government will be held responsible for the partition of Germany.

The one who waits will become the champion of German unity And as only the Russians can give the Germans unity without war, they will be the certain gainers and we the certain losers in the maneuver

Our German government in Frankfurt will have gotten everything from us that we have to give it—the economic subsidy and political power and the abdication of military government All its other prospects will depend on a political understanding with Russia and upon its trade with eastern Europe. We shall have played all our aces The Russians will still be holding theirs

**POSITION DIFFICULT**

Immediately, the consequence of establishing a Frankfurt government will be to make our position in Berlin exceedingly difficult For if by our own action we have made Frankfurt, rather than Berlin, the capital of the Germany in which we are interested, it will be difficult to convince the American people, and impossible to convince the French people, that the right to stay in Berlin is a shooting matter It is doubtful whether the administration is prepared to meet this summer a major crisis over Berlin

We are in Berlin because Berlin is the capital of Germany. If Berlin ceases to be the capital of Germany, and if "Germany" is western Germany (minus the French zone) then we have no more reason to be there than we have to be in Dresden or Leipzig

The government which we are proposing to establish in Frankfurt is described as a federal government. But it is to be created by a constitutional assembly elected by popular suffrage throughout western Germany, and the elections are to be conducted by centrally directed political parties

**No genuine federal system was ever created that way, and the German constitution which our officials have in mind would in fact set up a unitary state, which delegated certain of its powers to the constituent states.**

For the ultimate possessor of German sovereignty would be national parties under unified leadership and the power reserved to the states could be withdrawn whenever these centralized parties wished to withdraw them

It is moreover the acme of unwisdom on our part, so it seems to me, to precipitate national elections in Germany this year They are almost certain to become an aggravated version of the Italian elections, an unseemly and increasingly reckless competition by the victors for the favor of the German Nationalists and the German Communists

The issue in these elections will be whether the Germans have the most to gain by turning to the east, or to the west, or by playing both ends against the middle. One would think that responsible statesmen would do their best to avert and postpone rather than to precipitate a furious electoral battle in the hearts of Europe at this time

It is folly to think that in the turmoil of such an election as a matter of fact, of a series of elections, Germany will become a productive member of the European community. The elections will arouse passions in Germany, and cause tension throughout Europe, which are quite incompatible with confidence and economic recovery.

**FRENCH ACTION IMPORTANT**

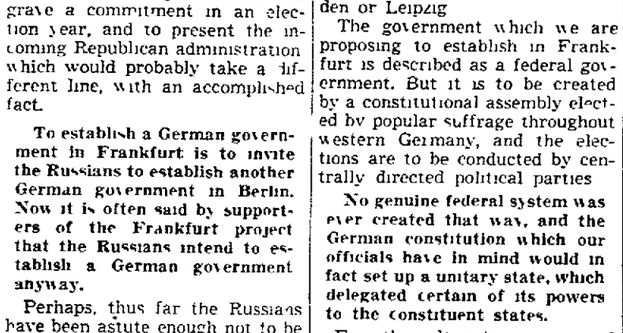

The French are, of course, serving their own national interest in opposing this project But the French are the neighbors of Germany, and there can be no peace and no unity in Europe if the French national interest is disregarded There can be no settlement in Europe which the French do not believe in and do not support

**Why should we think that we know so much more about Europe and its problems than the Europeans?**

The American officials who are playing the leading part in these negotiations about Germany are admirable public servants, we have no better men than Ambassador Douglas and General Clay

But neither of them has more than a recent and short experience of Europe and of Germany, and they ought to hesitate a long time before they insist that they understand these critical European problems better than the Europeans?

# Miss Hunt's 'Kid' Books Featured

## Author to Visit Library Saturday

Tomorrow, Mansfield children are going to have a real treat Miss Mabel Leigh Hunt, author of 17 well-known children's books, will be the guest of the Mansfield Public library.

At 10 a. m. Miss Hunt will speak on the books she has written. All boys and girls are invited to attend the address in the children's room

Many of Miss Hunt's books are in the children's department collection. Reserves on all books will be taken.

Two books for youngest children are PETER PIPER'S PICKLED PEPPERS and BILLY BUTTON'S BUTTERED BISCUITS The first tells what happened to the peppers after they were picked The second tells what happened to Billy's biscuits when he met a baby bear.

**SUCH A KIND WORLD is another one for fairly small children. It is a new book and tells of a group of children in a Children's home and of their pet horse. One day they were told that there was no money left for food for the horse. Their pet must be killed. The children set out to save their pet, and they did.**

BENJIE'S HAT, SUSAN BEWARE and YOUNG MAN OF THE HOUSE are for fourth and fifth graders Benjie is a favorite book friend, but he had a hard time with his hats

Susan was a tomboy. She lived in the days when a girl was expected to sit quietly, sew on samplers and learn the "womanly arts." But Susan preferred climing trees, racing with the boys and playing "Crusader' to the "womanly arts"

Eben, the "young man of the house," was left to look after the family when his father went to the war. Eben did quite well sometimes, but some of his experiences were not so happy.

NAME TOO LONG

Two favorites of all Miss Hunt's books are LITTLE GIRL WITH SEVEN NAMES and SIBBY BOTHERBOX. Melissa Clarissa Amanda Miranda Cynthia Jane Farlows was laughed at by the whole school when she recited her full name on her first day in school She hated school and didn't want to go at all after, that So she plotted and planned and figured on a way to give away two of her names Sibby, on the other hand, never really lived at all. Sibby is just for people with good imaginations who like to pretend, and who can make a pretend be real. Hannah was lonely, so she "pretended" Sibby, until Sibby was almost real

MICHEL'S ISLAND, LUCINDA' GIRL OF' 1860, HAVE YOU SEEN TOM THUMB? are for older readers. Michel lived on Mackinac Island in the early 1800's. His father was French, his mother was an Indian. Michel had to choose which he would be, French or Indian. Boys will envy Michel for the free life he lived in the country.

Lucinda lived in our own country during the Civil War Her family were Quakers who hated slavery and helped slaves escape on the underground railway. Lucinda helped, too, though there was danger for her—and suspense and excitement for you.

**Tom Thumb's real name was Charles Stratton. He was a midget, a boy who was laughed at and teased until he ran and hid whenever a stranger came near. P. T. Barnum, the man who built circuses, heard of the little man and went to see him. P. T. Barnum gave Stratton a job, made him a famous midget that the whole world knew. "Tom Thumb" traveled the world, met great people in many countries.**

Miss Hunt's newest book tells of Susie and Sophie Gooding, identical twins No one could tell them apart, except that when they smiled one of them had a dimple If you could remember which one had the dimple and make her smile you knew which was which. It was easy because they always smiled Then, came a birthday. Grandfather figured and figured, planned and planned until he made them the perfect DOUBLE BIRTHDAY PRESENT.

# STEEL MEN PLAN AHEAD

**The 56th General Meeting** of American Iron and Steel Institute is being held this week in New York City. It is an occasion upon which steel men meet to discuss major problems of mutual interest . . . growing steel capacity, supplies of raw materials and technical research.

**Today's research** goes deep into the secrets of the iron atom. It embraces every product the industry makes. It is carried on inside and outside the industry with the cooperation of research organizations, technical schools, colleges and universities all over the country.

**A complete list** of the problems for which the steel industry is seeking answers would run into the thousands But here is a bare handful of projects that are currently under way: Testing behavior of steel at 70 below zero . . . searching for material substitutes to eliminate dependence on imports . . . use of oxygen to make more steel in existing facilities . . . testing locomotive axles, railroad rails to provide even better, even safer transportation. . . .

**It all adds up** in the long run to better steel, or better ways to use steel products, or a way to produce more steel with present equipment.

**It adds up to progress in steel for the benefit of all.**

**AMERICAN IRON AND STEEL INSTITUTE**

**350 Fifth Avenue, New York 1, N. Y.**

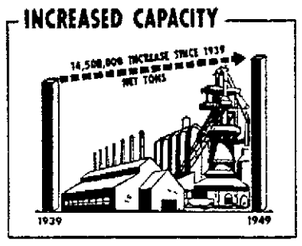

## TO SERVE YOU EVEN BETTER

Record breaking peacetime production is only part of steel's story. For the industry's contributions to our economy go much deeper than that.

For instance: Steel wages are at record totals; Steel consuming industries are operating at high levels; Steel capacity is being further increased and improved; Steel prices are relatively low.

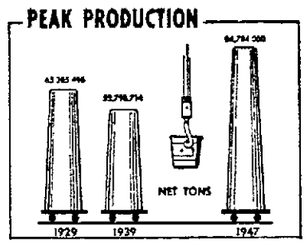

**Here is Steel's record at a glance:**

**INCREASED CAPACITY**

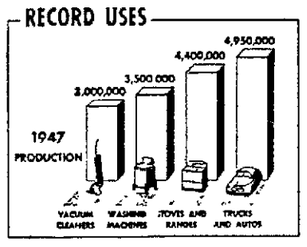

Steel's biggest peacetime expansion has been under way for three years Total cost will exceed $1,700,000,000 by the end of 1949 Steel making capacity will then have been increased by about 14,500 000 tons since 1939 Steel capacity is now so large as to tax available raw materials

**PEAK PRODUCTION**

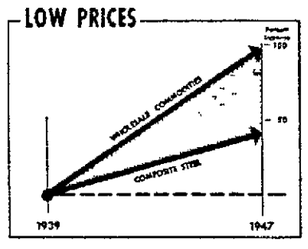

Peacetime record was set last year at 84 784 000 tons of steel U S production was about 53 per cent of world total First three months of 1948 was at even higher rate with production at annual rate of 88,000 000 net tons of steel

**RECORD USES**

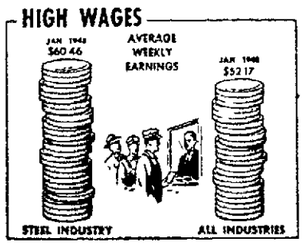

Large steel production in 1947 made possible peak levels of production and employment in steel consuming industries Production records were set last year in trucks washing machines ranges stoves and some farm equipment, near records in other fields

**LOW PRICES**

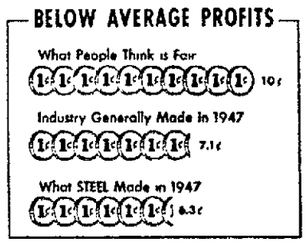

Average price of steel has gone up about 40 per cent in the last nine years Prices of most other metals, general commodities, foodstuffs and the cost of making steel have risen far more than the price of steel

**HIGH WAGES**

Last year the 525,000 wage earners employed by steel companies were paid almost a billion and-a-half dollars—a record breaking payroll In January 1948, they earned an average of over $60 per week, double the average weekly pay in 1939, and well above the average for all industries.

**BELOW AVERAGE PROFITS**

The public believes that a ten cent profit on the sales dollar would be 'fair ' Steel profits last year were 6 3 cents—well below what the public thinks is fair Profits last year were LESS than the amount spent by the industry for expansion and improvement

*There are more than 92 member companies of the Institute with plants in 166 American communities. They produce 95 percent of the country's steel.*

### *Comment By Southern Newspapers Evasive on Dixie Revolt Issue*

ATLANTA, Ga.—A strange, evasive spirit is expressed in some of the editorials in leading, or, better say, prominent, southern newspapers on the so-called Dixie revolt against President Truman and his civil rights program.

The News-Leade o: Richmond, Va., says the revolt will not occur, but it speaks entirely in terms of party politics.

**It refers distantly to the politicians, as though there were no feeling this way or that among the white people and the Negroes whose relations would be affected in a violent way by the changes which have been proposed.**

It seems to concede a negligible influence to that subhuman slob, the hero of the party of Franklin D. Roosevelt and his wife, the common man, and to regard the revolt as mere byplay of unprincipled professionals of precinct, county and state politics.

★

**Only on this assumption could** anyone argue, as this southern paper does, that the politicians, having turned it on, can—and, in due time, will—turn it off. When this is done, the common man will vote for Harry S. Truman.

The News-World, of Roanoke, Va., agrees with the News-Leader, pressing the larger and more resounding paper in an editorial based on the News-Leader's opinion.

It is impossible to compress the opinions of Ralph McGill, the editor of the Atlanta Constitution. He is the leading Jim Crow liberal of Georgia and like some thousands of others he obviously has no solution but only a wish. It is no disparagement to say that he has no solution but rather a compliment, because it is the insistence on entire solutions of immediately insoluble problems, right away that has created the present situation in the southern tier. Whether that situation is dangerous or only noisy I would not try to say.

**Without putting it into so few words, Mr. McGill pleads for a few years or, God willing, a couple of generations — and is willing to settle for improvement rather than absolute solutions.**

I find him and other Jim Crow liberals willing to sit by Negroes in street cars, which are almost obsolete, anyway, and in buses, which they seldom use, and agreeable to the idea of sitting by intellectual, polite, hygienic and, I gather, brown-skin Negroes in theaters and Pullmans.

★

**The question of close association** with black Negroes of pure African strain in checker-board apartment houses is left to the common man, who often has B.O. himself and also bothers his neighbors with his noise and garbage and meanness.

## Action On Health Post Due Soon

### Salary Boost to $8,000 Sought By Boards

A permanent city-county health commissioner probably will be appointed next Wednesday or Thursday, it was learned today.

**At a closed meeting of city and county officials late yesterday, a city health board member told the group that the board has five definite applicants for the post vacated by Dr. Fred O. Tonney on March 1, but that each of the men wanted a minimum salary of $8,000 a year plus traveling expenses.**

Prominently mentioned among the applicants was Dr. Harry Wain, associate director of the Miami Valley hospital, Dayton. He formerly was Miami county and Troy health commissioner. A native of Chicago, he was educated at Loyola university, Chicago, and the University of Michigan.

The health boards urged Charles N. Shultz, chairman of city council's finance committee, to ask council at its Tuesday night meeting to make a supplemental appropriation of approximately $1,100 to be added to the present commissioner's salary of $6,180.

The county health board indicated that it would allocate the additional money needed to bring the health commissioner's salary to $8,000 a year—if council would contribute its share.

Shultz indicated, it was learned, that he would have the necessary legislation prepared for the Tuesday night council meeting.

**James Carrigan, chairman of the city health board, said that if the money is made available Tuesday night, the health board would act immediately to pick one of the five applicants.**

Their applications were received by the board through answers to an advertisement in a medical journal and through direct mail contact.

One of the applicants is working at present in New York and another in California. Mentioned high up on the list of applicants is a Dayton hospital official with public health experience.

Dr. A. C. Biddle is acting as health commissioner. He was appointed to that post after Dr. Tonney resigned, under pressure, to take up duties as health director of the Shelby-Effingham (Ill.) Bi-County health district.

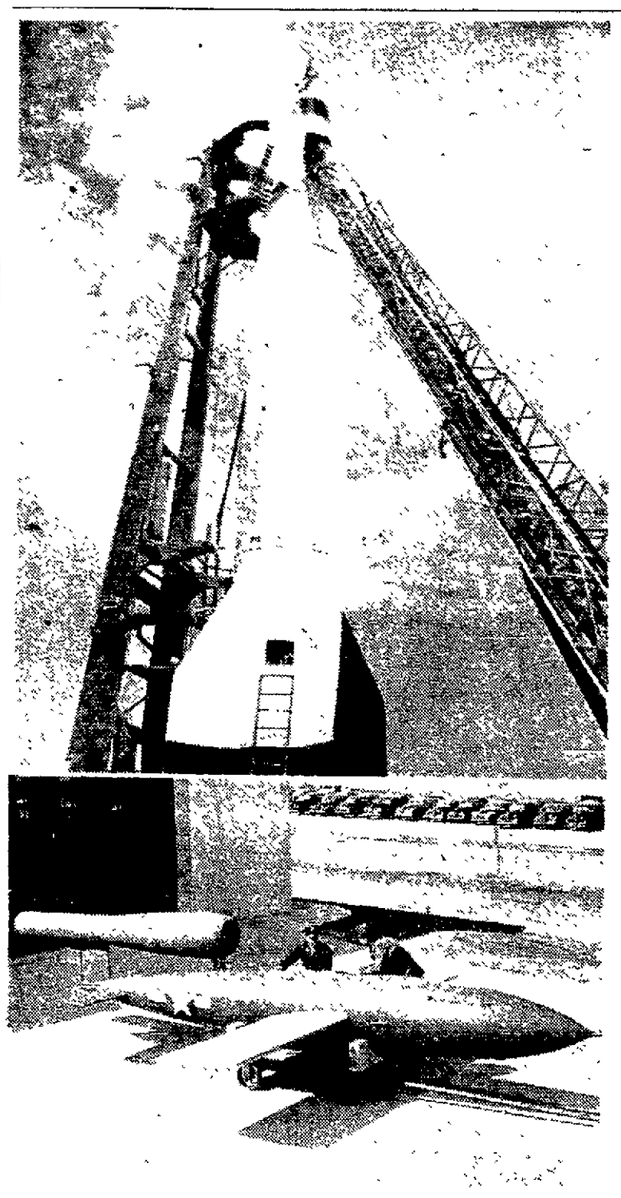

## Bound Over In Accident

Stumpf is charged in the traffic death of Walter J. Bigler May 16, following an accident at Greter's Lake and the Lexington-Springmill roads. Mr. Bigler was pronounced dead on arrival at Mansfield general hospital.

Stumpf was also charged with failure to stop at a stop sign. He pleaded innocent, but was found guilty by the court.

Sentence was deferred pending disposition of the other charge.

**ON EXHIBIT FOR THREE DAYS—Five huge Army trucks bring to Mansfield today an exhibit of American equipment and captured German weapons as part of a three-day campaign to enlist 353 officers and men for Mansfield's new 164th Fighter Squadron of the Ohio National Guard. The exhibit opens tomorrow at Central park and continues there through Monday. Some of the articles to be exhibited are shown here. Upper left, a German V-2 rocket, similar to those being fired by the U. S. Air Forces at White Sands, N. M. Less than 50 feet long, this rocket is like those that fell on London during World War II. Lower left: This American buzz bomb is very similar to the German V-1 buzz bomb used extensively against London from launching sites in France. The rocket is propelled by a pulse jet engine. The Central park exhibit also will include a working model of a pulse jet which will be "run" frequently during the three-day show. Upper right: An ROC television radio controlled bomb, a new instrument of aerial warfare. Lower right: A G-suit or blackout suit, which enables a fighter pilot to withstand high speed pull-outs.**

## *Mansfielder's Law Manual Published*

Mansfield has a new author—this time in the non-fiction field. Thomas J. McDermott, secretary-treasurer of the Guarantee Title company and real estate lawyer, has written a 330-page volume called "Manual on Title to Real Estate In Ohio."

Described as a comprehensive guide to Ohio law on real property, the manual is published by the Allen Smith company, Indianapolis, and went on sale this week. Without revealing specific figures, the publishers said initial orders have already reached the total they had anticipated for the first year of publication. Price of the technical volume is $15.

The manual consists of 84 sections including an index to property laws in the Ohio general code, annotations and general sections ranging from adopted children through deeds, taxes, and wills.

McDermott heads a staff of six persons practicing law as McDermott and Associates. He has practiced in Mansfield for 20 years and has specialized in real estate law for 25 years. He spent two years in writing the book.

**Prior to coming here, McDermott worked in Cleveland with the late Charles C. White, chief title officer of the Land Title Guarantee and Trust company, a noted title laywer.**

A native of Morgan county, McDermott comes from a family of attorneys. His father and two uncles practiced law. One of them, for whom the Mansfielder was named, had an office in Zanesville and served in the Ohio legislature.

McDermott's book is leather bound and is designed, of course, for use of the legal profession rather than the general reading public.

## Girl Scouts to Occupy New Headquarters Next Week

Headquarters for the Mansfield Girl Scouts will be moved June 1 to the Towne House offices on South Franklin avenue, it was announced yesterday at a meeting of the Council at Camp Niniwan.

**The Towne House, official name given to Girl Scout headquarters, will be in the old parsonage back of the St. John's Evangelical church on South Franklin. The Girl Scouts will have the entire lower floor with space for administrative offices, an arts room, a meeting room and a kitchen. This will give accommodations for leaders, and council meetings, which have been held either at Camp Niniwan or at the various homes.**

The Scout headquarters now are located in the Walpark building, but officials say membership has tripled since 1943 and present offices are not large enough.

At the meeting yesterday, Mrs. Joy Herbert, commissioner, presided and presented Miss Vivian Roberts, representative of the Leaders association to which she has just been elected president.

Five Girl Scouts workers will be sent away for special training this summer, three to Camp Edith Macey in New York and two for special training in conservation at Newark. Of the three sent to New York one will take senior leadership training and the other two volunteer training.

Mrs. Charles Orr, co-chairman of Camp Niniwan, reported yesterday that new equipment has been added to the camp. It includes a new electric refrigerator, first aid cabinet, 50 folding chairs, tables, second-hand electric range, and additional dishes and kitchen utensils. Mrs. Orr said that members of several men's clubs in the city had volunteered to help with the building program at the camp.

## Perrine's Left Ankle Is Broken

By CHARLEY STINE

Senior high lost its final baseball game of the season, 6-1, yesterday at Wooster, but the gloom which hung over the game was concerned more with the injury to Centerfielder Corky Perrine than with the outcome.

Perrine, game little sophmore gardener, broke his left ankle sliding into second base on an attempted steal in the fifth inning. He was taken in an ambulance to a Wooster hospital. A good fielder, but weak hitter, Perrine was having his best day at bat when injured. He had singled to right, his second clean hit of the year, in the third inning and walked in the fifth for a perfect day.

Perrine

The Tygers were leading, 1-0, at the time, but fell apart to let the home team score six times in the final two frames. Sparkie Watts gave up three runs in the last half of the fifth and Shelly Swank yielded three more in the sixth. Watts, evidently unnerved by the mishap, made two wild throws to let in runs.

**GET TWO HITS**

Swank and Mike Gruber were the only Tygers to be comparatively active with the willow, getting two hits apiece. Swank finished the season in a hot batting streak with seven hits in his last 12 times at bat. He scored Mansfield's only run in the fourth inning after singling. He went to second on a wild pitch, advanced to third on Joe Miller's infield out and rode home on Gruber's single to left.

★

Coach Jimmy Lymper's team won 11, lost three and tied one. The Tygers won their fourth straight district championship but were eliminated in the regional meet.

## *John Simpson Wins City Track Crown*

A talented gang of young cinderpath artists wrote three new meet records into the books yesterday in the annual Mansfield city championship track and field meet at Stadium field.

The favored John Simpson aggregation defeated Johnny Appleseed, 70 1-3 to 24 2-3. However, Appleseed accounted for two of the records.

In addition to the three new marks, Bill Stutz, Simpson pole vaulter, tied the 9 feet, 9 inch record set by Don Cline, also of Simpson, in 1946. Wadlington authored Simpson's new record when he traveled the 120-yard low hurdles in 15.6. Paul Ferguson put up the old mark of 16.4 when he ran for Appleseed in 1946.

Harry Carr was tangled up in both Appleseed records. He ran the 100 in 10.7 and ran the leadoff position on the 440 quartet which streaked the distance in 48 seconds. Other members of the team were: Don Green, Gene Ayers and Norman Drake. The old mark was 49.2 and the national junior high mark (7 and 8 graders) is 48.6.

**BOTH PUT OUT**

Simpson missed a chance to really fracture the 880 relay mark when they toured the two laps in 1:39.8 to apparently hand the Appleseed team its first defeat of the year. The time knocked off the previous mark by 4.6 seconds but the Bulldogs were disqualified for cutting in. A moment later Appleseed was also disqualified for not carrying the baton across the finish line.

Wadlington was the individual star with three firsts while his mate, Ken McCally, took both the shot and discus.

Clarence Bailey, broad jump; Jim Hager, 880 and John Fowled, 440 notched the other Simpson wins. The Bulldogs swept the 440 and broad jump.

## 34 Drivers Seek Spots In Big Race

INDIANAPOLIS—(AP)—Owners, drivers and mechanics of 34 unqualified cars at the Indianapolis Motor Speedway worked under increasing pressure today to get ready for final trials tomorrow for the 500-mile race Monday.

Only three places remained to be filled in the 33-car starting lineup. After three cars qualify tomorrow any others will have to run ten miles in faster time than some of the previous qualifiers to start in the race.

**FASTEST 33**

The fastest 33 cars will start. Among the 30 now qualified those most in danger of being crowded out are Ken Fowler of Dayton, O., Spider Webb of Bell, Calif., and Johnny Mauro of Denver. They qualified at less than 122 miles an hour.

Ted Horn of Paterson, N. J., was elected president last night of the Champion 100-Mile An Hour club, for membership in which he has qualified eight times. He succeeds Rex Mays of Glendale Calif.

The club is composed of 25 living men who have driven 500 miles at more than 100 miles an hour. Twelve others who have qualified for the club are dead. Bill Holland of Reading, Pa., who finished second last year, and Walt Brown of Massapequa, N. Y., who finished seventh, are the only new members who were in the 1947 race.

### *Six Long Hitters Compete Tonight*

Six of the longest hitters in Mansfield will compete in a golf driving contest as a part of the formal opening of the Richland driving range at 8:30 tonight.

Competing in the contest will be Bernie Mathias, county driving champion, and Red Dillon, representing Possum Run, Pete Thoma and Jim Musille of Coolridge and Bob Moorhead and Carl Wiseman of Westbrook. Wiseman is the present Westbrook champ.

## *3 Trapshoots Scheduled at Local Clubs*

This week end will be a noisy one for the city's two gun clubs with trapshoots scheduled tomorrow, Sunday, and Monday.

The Mansfield Gun club will be in the spotlight for shoots on Saturday and Sunday while on Memorial Day one of four zone shoots in the state will be held at the Ohio Sportmens club.

Firing will begin at 10 a. m. tomorrow at the Mansfield club, located on Park avenue west road, in a 150 bird 16 yard shoot. Sunday, shooting will be at 100 birds from handicap distances and will begin at 12 noon.

C. M. Matthes, proprietor of the club, has sent out over 400 invitations to the shoot and expects upwards of 100 shooters to be present.

The zone shoot to be held on the holiday at the Ohio Sportsmen's club, (Route 30-N) should attract around 200 shooters. The five high guns of the shoot will advance to the state meet.

Shooters may fire 100 shots from 16 yards beginning at 9:30 a. m.

### *Obtain Revenge*

DELAWARE—(UP)—Ohio Wesleyan's baseball team obtained revenge for an early season 4-2 defeat from Otterbein by scoring a 12-5 victory over the Westerville squad here yesterday.

## Ohio State Bucks Favored to Win Big Nine Crown

MADISON, Wis. — (AP) — Ohio State's unbeaten Buckeyes were eyeing their second Big Nine outdoor track championship in 48 years today as athletes from the league schools opened the Western conference meet at Camp Randall.

The Buckeyes won their first—and only—outdoor crown in 1942. They've already grabbed the indoor title this year and, undefeated in dual competition since coming outside this spring, are favored to snap Illinois' string of three straight Big Nine crowns.

As trials opened today, Coach Larry Snyder's 26-man squad was expected to score in at least 11 of the 14 events, although the Buckeyes may win as few as three of them. Trials were scheduled in all events except the mile, two mile, high jump, pole vault and mile relay. All finals are tomorrow.

## *Clay Haefner Tops Colonial*

FORT WORTH, Tex.—(AP)—The $15,000 colonial national invitation golf tournament moved into its second round today with the select field chasing ponderous Clayton Heafner, Charlotte, N. C.

Heafner held a one-stroke lead as the result of his three-under par 67 in yesterday's opening 18.

A stroke behind Heafner were Chandler Harper of Portsmouth, Va.; Herman Keiser of Akron, O.; Toney Penna of Cincinnati and George Schoux of Mamaroneck, N. Y.

Not out of the running by any means but four strokes back was Ben Hogan, the little guy from Hershey, Pa., who won both the previous colonial tournaments and who was the general favorite this time in view of his triumph in the national PGA at St. Louis only this week.

## Don Black to Face White Sox Tonight

CHICAGO—(INS)—The Cleveland Indians battle to regain leadership of the American league tonight in Chicago with Don Black opposing Joe Haynes on the mound.

While the Tribe is meeting the White Sox in a four game series, the Philadelphia Athletics, who took over the league lead yesterday, tangle with the New York Yankees in a four-game series.

### *Wrong Business*

Piles
Are Never "Mild"
DANGER IN NEGLECT
No one should ever think of piles (hemorrhoids) as a "mild" disorder.
Although they may seem a "mild" ailment, especially when not giving pain or inconvenience, piles are in fact tumor formation without tendency to heal themselves; instead, they are likely, if neglected to keep increasing in size, involving more and more of the rectal area.
Even a so-called "mild" case may be expected to undermine one's health, by inviting, predisposing to or aggravating other ailments, such as: indigestion, billiousness, stomach trouble, constipation, headaches, pain in back and down the legs, secondary anemia with its run-down tired feeling, and general nervous irritability.
Removal of piles is the only permanent relief—written guarantee. My method produces little or no discomfort, does not require the use of knife or drugs, and seldom is the patient required to lose any time from work or other duties.

# Philadelphia Goes Into American League Lead

## Rap Senators, 7-3; Lead Tribe By One

By JACK HAND, AP Sports Writer

Connie Mack's Athletics are safely home in first place, fooling the wiseacres who said Philadelphia would fade in the West. Winners eight times in 13 starts since leaving friendly Shibe park, the Mackmen now must be considered bona fide pennant contenders.

The A's smeared Washington last night, 7-3.

Cleveland's percentage point columns couldn't stop the A's from regaining the lead last night. They moved a full game in front of the idle Indians and, more important, nine percentage points to the good.

**BOTTLE SHOWER**

Umpire Red Jones found himself in the midst of a shower of bottles, beer cans and other debris as Washington in the ninth inning. He was in the path of a ball thrown to the plate by Mickey Vernon of Washington. Vernon scooped up Pete Suder's grounder and tried to catch Sam Chapman at the plate but the ball struck Jones' chest protector as he stood in the base line.

**This most explosive outburst by Washington fans in recent years didn't end until Jones told the public address announcer to say the game would be forfeited unless the shower ceased. The game was finished and police escorted Jones from the field.**

Stan Musial polished off his sensational eastern swing with two hits, including his 10th homer, in the St. Louis Cards' 9-6 victory over the New York Giants.

Red Schoendienst's bases-loaded single was the big blow for the Cards as they scored four runs in the ninth to top the stubborn Giants, 9-6.

**BROOKLYN WINS**

The Brooklyn Dodgers ended a one-day stay in the National cellar, climbing to sixth place by shading Chicago, 4-2. Pee Wee Reese stole home on Ra[illegible] with what proved to be the winning run although it made the score 3-0 at the time. Ralph Branca went all the way for his third success.

Curt Simmons, the Phillies' $60,000 bonus lefthander, finally hit his stride with a fancy three-hit win over Pittsburgh, 2-1.

Cincinnati and Boston were idle in the National as were Boston, New York, Cleveland, Chicago, Detroit and St. Louis in the American.

## High Baseball Meet Begins

COLUMBUS—(AP)—Eight Ohio high school baseball teams squared off today for tries at the Class A and Class B state championships.

With the field narrowed through sudden-death district and regional competition, the Class A pairings sent Columbus Central against Warren Harding and Cleveland Benedictine against Cincinnati Western Hills.

In Class B, Orange Township met McCutcheonville and Brecksville tied into Sycamore Township.

Championship finals will be played tomorrow afternoon.

## These Are Happy Days For Boudreau

By CHARLES EINSTEIN

CHICAGO—(INS)—Lou Boudreau looks somewhat like a tired cowhand, and there have been times when he wished he was no more than that.

This is not one of those times.

These are happy times, instead, for the one-time Harvey, Ill., high school basketball star who, at the moment, could run for mayor in Cleveland, O., and make it standing up.

What Boudreau is doing at this time, in managing the robust, pennant-contending Cleveland Indians, is operating like a howitzer at the plate, functioning afield like an oiled gear box, and thinking like Rodin's statue.

This slightly complicated existence as Tribal factotum has its share of compensations, not the least of which is you get a chance to play the Chicago White Sox every once in awhile, like tonight, tomorrow and Sunday (two times).

**COULD BE PENNANT**

In the offing, too, there might be Cleveland's first American league pennant since 1920. Boudreau, for one, does not like to be seen these days with people who are known for optimism.

Instead, he said in Chicago yesterday:

**"We've seen every club in the league two times around now, and my pre-season opinion of the American league setup has not changed."**

A visit to the files disclosed that Boudreau, at the season's commencement, regarded the New York Yankees and Boston Red Sox as "the teams to beat." In equally guarded tones, he hinted further that his own associates, the Indians, would be "up there [illegible]" and that the Philadelphia Athletics were what you might call the dark horse of the league.

His prophecy, now well over a month old, bears a ring of authority. Certainly the Indians have not faltered perceptibly ever since their opening-season victory run.

Boudreau is happy over that, and over the performance of such newcomers as Gene Bearden, the young pitcher, or such veterans as Ken Keltner and Joe Gordon.

**FANS HAPPY**

Along with Boudreau those two form as potent an all-righthanded murderers' row as baseball has known in some time, and certainly Cleveland is just as happy all the Indians' home games are now played in the big lakefront stadium, rather than at League park, which did not favor righthanded batsmen.

Indeed, the one thing Boudreau has trouble explaining is himself, and not merely because modesty forbids. According to latest he is hitting .383, which leads the American league, despite that weird batting stance of his in which he doesn't so much stand at the plate as brood over it.

## Americans Reach Golf Semi-Finals

SANDWICH, England—(AP)—Willie Turnesa of White Plains, N. Y., and Frank Stranahan of Toledo, Ohio, advanced into the semifinal round of the British amateur golf tourney today.

Turnesa, defending champion, subdued Sam Roberts of Wales, 4 and 3, on the sun-bathed St. George's course. Stranahan, runner up in the British open a year ago, mastered Mario Gonzalez of Brazil, 4 and 2.

## Joey Maxim Gives Foe Boxing Lesson

TACOMA, Wash.—(UP)—Joe Maxim, 182, Cleveland, last night administered a 10-round boxing lesson to Roy Hawkins, 191, Tacoma.

Maxim won a unanimous decision after 10 rounds of complete control over Hawkins. There were no knockdowns, although Maxim slipped to the canvas for no count in the opening round.

## Charles Mill Rated Good For Fishing

By JAMES DAILEY

COLUMBUS—(UP)—Lake St. Marys, in the western part of the state near Celina, today took the prize as the hottest fishing spot of all those reported to the conservation division this week.

The big lake thus promised to be a paradise for those week end fishermen who liked crappie fishing. Each angler trying his luck there this week averaged a catch of almost two fish per hour, and 94 per cent of it was in crappies.

The only other spot of the ten surveyed which actually was labelled "good" was Charles Mills near Mansfield and Ashland. Here the catch averaged a little over one fish per hour for each angler and it was about evenly divided between bullheads (40 per cent) and channel catfish (35 per cent).

All the eight remaining lakes were labelled as just "fair," although the bass catch was said to be increasing at Guilford lake near Salem and Lisbon.

The field man making the report from Guilford lake noted that all fly fishermen were having outstanding success and the bass catch was increasing considerably.

## Harrison Dillard's Modest, Friendly Fellow

CLEVELAND—(AP)—Track coach Eddie Finnigan, who teaches a course in coaching at Baldwin-Wallace college, probably is the only professor in the country who uses a textbook with a picture of one of his pupils on the cover.

The book is the official track and field guide and the young man on the cover is Harrison Dillard, crack Baldwin-Wallace hurdler who ranks as one of this country's outstanding favorites in the coming Olympic games.

On the small Baldwin-Wallace campus they call him "Bones." But that nickname began in the days when Dillard was a gangly kid at Kennard Junior high school and it doesn't fit any more.

**At 24, he is a well-filled out trim five feet, ten inches tall and weighs 158 pounds. "Bones" is popular, friendly and known for his modesty.**

Dillard, the pride of Berea, shares the world records of 22.5 seconds in the 220-yard low hurdles and 13.7 in the 120-yard highs, with his clockings of 22.3 and 13.6 awaiting official recognition. He also holds or shares seven world indoor hurdling records and can run the 100-yard dash in 9.6.

In a track meet with Miami university at Oxford, Ohio, May 15, Dillard boosted his consecutive victory string from 64 to 67, breaking Greg Rice's record of 65 straight wins. He now has gone 70 races without defeat.

He will have a chance to increase that streak tomorrow when he competes in the Ohio Conference meet at Ohio Wesleyan.

Dillard sits modestly in a back row in Finnigan's class on coaching. Like many of the men at B-W, Dillard is in school under the GI bill of rights.

He was in the army for 32 months and spent 17 months overseas, mostly in an infantry division in northern Italy. Dillard chose Baldwin-Wallace because he didn't want to go to a big school. He is majoring in business courses and his ambition is to become a retail clothing salesman.

Dillard credits Ivan Greene, coach at Cleveland's East Tech high school, with teaching him the basics of hurdling, and Finnigan with developing his polish and speed.

Naturally, Dillard expects to make the U. S. Olympic team. He says there will be a "lot of good performers" in the London games, July 29 to Aug. 14, but he hopes to be there and do his share.

## Perrine's Left Ankle Is Broken

By CHARLEY STINE

Senior high lost its final baseball game of the season, 6-1, yesterday at Wooster, but the gloom which hung over the game was concerned more with the injury to Centerfielder Corky Perrine than with the outcome.

Perrine, game little sophmore gardener, broke his left ankle sliding into second base on an attempted steal in the fifth inning. He was taken in an ambulance to a Wooster hospital. A good fielder, but weak hitter, Perrine was having his best day at bat when injured. He had singled to right, his second clean hit of the year, in the third inning and walked in the fifth for a perfect day.

Perrine

The Tygers were leading, 1-0, at the time, but fell apart to let the home team score six times in the final two frames. Sparkie Watts gave up three runs in the last half of the fifth and Shelly Swank yielded three more in the sixth. Watts, evidently unnerved by the mishap, made two wild throws to let in runs.

**GET TWO HITS**

Swank and Mike Gruber were the only Tygers to be comparatively active with the willow, getting two hits apiece. Swank finished the season in a hot batting streak with seven hits in his last 12 times at bat. He scored Mansfield's only run in the fourth inning after singling. He went to second on a wild pitch, advanced to third on Joe Miller's infield out and rode home on Gruber's single to left.

★

Coach Jimmy Lymper's team won 11, lost three and tied one. The Tygers won their fourth straight district championship but were eliminated in the regional meet.

## *John Simpson Wins City Track Crown*

A talented gang of young cinderpath artists wrote three new meet records into the books yesterday in the annual Mansfield city championship track and field meet at Stadium field.

The favored John Simpson aggregation defeated Johnny Appleseed, 70 1-3 to 24 2-3. However, Appleseed accounted for two of the records.

In addition to the three new marks, Bill Stutz, Simpson pole vaulter, tied the 9 feet, 9 inch record set by Don Cline, also of Simpson, in 1946. Wadlington authored Simpson's new record when he traveled the 120-yard low hurdles in 15.6. Paul Ferguson put up the old mark of 16.4 when he ran for Appleseed in 1946.

Harry Carr was tangled up in both Appleseed records. He ran the 100 in 10.7 and ran the leadoff position on the 440 quartet which streaked the distance in 48 seconds. Other members of the team were: Don Green, Gene Ayers and Norman Drake. The old mark was 49.2 and the national junior high mark (7 and 8 graders) is 48.6.

**BOTH PUT OUT**

Simpson missed a chance to really fracture the 880 relay mark when they toured the two laps in 1:39.8 to apparently hand the Appleseed team its first defeat of the year. The time knocked off the previous mark by 4.6 seconds but the Bulldogs were disqualified for cutting in. A moment later Appleseed was also disqualified for not carrying the baton across the finish line.

Wadlington was the individual star with three firsts while his mate, Ken McCally, took both the shot and discus.

Clarence Bailey, broad jump; Jim Hager, 880 and John Fowled, 440 notched the other Simpson wins. The Bulldogs swept the 440 and broad jump.

## 34 Drivers Seek Spots In Big Race

INDIANAPOLIS—(AP)—Owners, drivers and mechanics of 34 unqualified cars at the Indianapolis Motor Speedway worked under increasing pressure today to get ready for final trials tomorrow for the 500-mile race Monday.

Only three places remained to be filled in the 33-car starting lineup. After three cars qualify tomorrow any others will have to run ten miles in faster time than some of the previous qualifiers to start in the race.

**FASTEST 33**

The fastest 33 cars will start. Among the 30 now qualified those most in danger of being crowded out are Ken Fowler of Dayton, O., Spider Webb of Bell, Calif., and Johnny Mauro of Denver. They qualified at less than 122 miles an hour.

Ted Horn of Paterson, N. J., was elected president last night of the Champion 100-Mile An Hour club, for membership in which he has qualified eight times. He succeeds Rex Mays of Glendale Calif.

The club is composed of 25 living men who have driven 500 miles at more than 100 miles an hour. Twelve others who have qualified for the club are dead. Bill Holland of Reading, Pa., who finished second last year, and Walt Brown of Massapequa, N. Y., who finished seventh, are the only new members who were in the 1947 race.

## *Six Long Hitters Compete Tonight*

Six of the longest hitters in Mansfield will compete in a golf driving contest as a part of the formal opening of the Richland driving range at 8:30 tonight.

Competing in the contest will be Bernie Mathias, county driving champion, and Red Dillon, representing Possum Run, Pete Thoma and Jim Musille of Coolridge and Bob Moorhead and Carl Wiseman of Westbrook. Wiseman is the present Westbrook champ.

## *3 Trapshoots Scheduled at Local Clubs*

This week end will be a noisy one for the city's two gun clubs with trapshoots scheduled tomorrow, Sunday, and Monday.

The Mansfield Gun club will be in the spotlight for shoots on Saturday and Sunday while on Memorial Day one of four zone shoots in the state will be held at the Ohio Sportmens club.

Firing will begin at 10 a. m. tomorrow at the Mansfield club, located on Park avenue west road, in a 150 bird 16 yard shoot. Sunday, shooting will be at 100 birds from handicap distances and will begin at 12 noon.

C. M. Matthes, proprietor of the club, has sent out over 400 invitations to the shoot and expects upwards of 100 shooters to be present.

The zone shoot to be held on the holiday at the Ohio Sportsmen's club, (Route 30-N) should attract around 200 shooters. The five high guns of the shoot will advance to the state meet.

Shooters may fire 100 shots from 16 yards beginning at 9:30 a. m.

### *Obtain Revenge*

DELAWARE—(U.P.)—Ohio Wesleyan's baseball team obtained revenge for an early season 4-2 defeat from Otterbein by scoring a 12-5 victory over the Westerville squad here yesterday.

## Ohio State Bucks Favored to Win Big Nine Crown

MADISON, Wis. —(AP)— Ohio State's unbeaten Buckeyes were eyeing their second Big Nine outdoor track championship in 48 years today as athletes from the league schools opened the Western conference meet at Camp Randall.

The Buckeyes won their first—and only—outdoor crown in 1942. They've already grabbed the indoor title this year and, undefeated in dual competition since coming outside this spring, are favored to snap Illinois' string of three straight Big Nine crowns.

As trials opened today, Coach Larry Snyder's 26-man squad was expected to score in at least 11 of the 14 events, although the Buckeyes may win as few as three of them. Trials were scheduled in all events except the mile, two mile, high jump, pole vault and mile relay. All finals are tomorrow.

## *Clay Haefner Tops Colonial*

FORT WORTH, Tex.—(AP)—The $15,000 colonial national invitation golf tournament moved into its second round today with the select field chasing ponderous Clayton Heafner, Charlotte, N. C.

Heafner held a one-stroke lead as the result of his three-under par 67 in yesterday's opening 18.

A stroke behind Heafner were Chandler Harper of Portsmouth, Va.; Herman Keiser of Akron, O.; Toney Penna of Cincinnati and George Schoux of Mamaroneck, N. Y.

Not out of the running by any means but four strokes back was Ben Hogan, the little guy from Hershey, Pa., who won both the previous colonial tournaments and who was the general favorite this time in view of his triumph in the national PGA at St. Louis only this week.

## Don Black to Face White Sox Tonight

CHICAGO—(INS)—The Cleveland Indians battle to regain leadership of the American league tonight in Chicago with Don Black opposing Joe Haynes on the mound.

While the Tribe is meeting the White Sox in a four game series, the Philadelphia Athletics, who took over the league lead yesterday, tangle with the New York Yankees in a four-game series.

### *Wrong Business*

CLEVELAND—(INS)— Two-ton Tony Galento still packs a wallop but he's in the wrong business to use it. Galento was disqualified for punching in the feature best of three falls match with Frank Sexton last night at Cleveland arena.

## *Three Club Loop Softball Contests Scheduled Tonight*

The week's softball league firing ends tonight with three games in the Club league beginning at 6 p. m.

None of the three leading teams—Sons of Herman, American Veterans Committee or Veterans of Foreign Wars—meet in the program. The Hermans are defending champions.

Sons of Herman goes against the Amvets at North Lake park. AVC tangles with Moose lodge at Prospect park and VFW meets American Legion Post 16 at Johns park.

Results of opening games last week follow: Hermans 5, Legion 0; VFW 5, Moose 4; AVC 2, Amvets 1.

Piles
Are Never "Mild"

DANGER IN NEGLECT

No one should ever think of piles (hemorrhoids) as a "mild" disorder.

Although they may seem a "mild" ailment, especially when not giving pain or inconvenience, piles are in fact tumor formation without tendency to heal themselves; instead, they are likely, if neglected to keep increasing in size, involving more and more of the rectal area.

Even a so-called "mild" case may be expected to undermine one's health, by inviting, predisposing to or aggravating other ailments, such as: indigestion, billiousness, stomach trouble, constipation, headaches, pain in back and down the legs, secondary anemia with its run-down tired feeling, and general nervous irritability

Removal of piles is the only permanent relief—written guarantee. My method produces little or no discomfort, does not require the use of knife or drugs, and seldom is the patient required to lose any time from work or other duties.

Why not call and learn of this method? The examination is free.

# Philadelphia Goes Into American League Lead

## Rap Senators, 7-3; Lead Tribe By One

By JACK HAND, AP Sports Writer

Connie Mack's Athletics are safely home in first place, fooling the wiseacres who said Philadelphia would fade in the West. Winners eight times in 13 starts since leaving friendly Shibe park, the Mackmen now must be considered bona fide pennant contenders.

The A's smeared Washington last night, 7-3.

Cleveland's percentage point columns couldn't stop the A's from regaining the lead last night. They moved a full game in front of the idle Indians and, more important, nine percentage points to the good.

**BOTTLE SHOWER**

Umpire Red Jones found himself in the midst of a shower of bottles, beer cans and other debris as Washington in the ninth inning. He was in the path of a ball thrown to the plate by Mickey Vernon of Washington. Vernon scooped up Pete Suder's grounder and tried to catch Sam Chapman at the plate but the ball struck Jones' chest protector as he stood in the base line.

**This most explosive outburst by Washington fans in recent years didn't end until Jones told the public address announcer to say the game would be forfeited unless the shower ceased. The game was finished and police escorted Jones from the field.**

Stan Musial polished off his sensational eastern swing with two hits, including his 10th homer, in the St. Louis Cards' 9-6 victory over the New York Giants

Red Schoendienst's bases-loaded single was the big blow for the Cards as they scored four runs in the ninth to top the stubborn Giants, 9-6.

**BROOKLYN WINS**

The Brooklyn Dodgers ended a one-day stay in the National cellar, climbing to sixth place by shading Chicago, 4-2. Pee Wee Reese stole home on Ri[illegible] with what proved to be the winning run although it made the score 3-0 at the time. Ralph Branca went all the way for his third success.

Curt Simmons, the Phillies' $60,000 bonus lefthander, finally hit his stride with a fancy three-hit win over Pittsburgh, 2-1.

Cincinnati and Boston were idle in the National as were Boston, New York, Cleveland, Chicago, Detroit and St. Louis in the American.

## High Baseball Meet Begins

COLUMBUS—(AP)—Eight Ohio high school baseball teams squared off today for tries at the Class A and Class B state championships.

With the field narrowed through sudden-death district and regional competition, the Class A pairings sent Columbus Central against Warren Harding and Cleveland Benedictine against Cincinnati Western Hills.

In Class B, Orange Township met McCutcheonville and Brecksville tied into Sycamore Township.

Championship finals will be played tomorrow afternoon.

## These Are Happy Days For Boudreau

By CHARLES EINSTEIN

CHICAGO—(INS)—Lou Boudreau looks somewhat like a tired cowhand, and there have been times when he wished he was no more than that.

This is not one of those times.

These are happy times, instead, for the one-time Harvey, Ill., high school basketball star who, at the moment, could run for mayor in Cleveland, O., and make it standing up.

What Boudreau is doing at this time, in managing the robust, pennant-contending Cleveland Indians, is operating like a howitzer at the plate, functioning afield like an oiled gear box, and thinking like Rodin's statue.

This slightly complicated existence as Tribal factotum has its share of compensations, not the least of which is you get a chance to play the Chicago White Sox every once in awhile, like tonight, tomorrow and Sunday (two times).

**COULD BE PENNANT**

In the offing, too, there might be Cleveland's first American league pennant since 1920. Boudreau, for one, does not like to be seen these days with people who are known for optimism.

Instead, he said in Chicago yesterday:

**"We've seen every club in the league two times around now, and my pre-season opinion of the American league setup has not changed."**

A visit to the files disclosed that Boudreau, at the season's commencement, regarded the New York Yankees and Boston Red Sox as "the teams to beat." In equally guarded tones, he hinted further that his own associates, the Indians, would be "up there" and that the Philadelphia Athletics were what you might call the dark horse of the league.

His prophecy, now well over a month old, bears a ring of authority. Certainly the Indians have not faltered perceptibly ever since their opening-season victory run.

Boudreau is happy over that, and over the performance of such newcomers as Gene Bearden, the young pitcher, or such veterans as Ken Keltner and Joe Gordon.

**FANS HAPPY**

Along with Boudreau those two form as potent an all-righthanded murderers' row as baseball has known in some time, and certainly Cleveland is just as happy all the Indians' home games are now played in the big lakefront stadium, rather than at League park, which did not favor righthanded batsmen.

Indeed, the one thing Boudreau has trouble explaining is himself, and not merely because modesty forbids. According to latest he is hitting .383, which leads the American league, despite that weird batting stance of his in which he doesn't so much stand at the plate as brood over it.

## Americans Reach Golf Semi-Finals

SANDWICH, England—(AP)—Willie Turnesa of White Plains, N. Y., and Frank Stranahan of Toledo, Ohio, advanced into the semifinal round of the British amateur golf tourney today.

Turnesa, defending champion, subdued Sam Roberts of Wales, 4 and 3, on the sun-bathed St. George's course. Stranahan, runner up in the British open a year ago, mastered Mario Gonzalez of Brazil, 4 and 2.

## Joey Maxim Gives Foe Boxing Lesson

TACOMA, Wash.—(UP)—Joe Maxim, 182, Cleveland, last night administered a 10-round boxing lesson to Roy Hawkins, 191, Tacoma.

Maxim won a unanimous decision after 10 rounds of complete control over Hawkins. There were no knockdowns, although Maxim slipped to the canvas for no count in the opening round.

## Charles Mill Rated Good For Fishing

By JAMES DAILEY

COLUMBUS—(UP)—Lake St. Marys, in the western part of the state near Celina, today took the prize as the hottest fishing spot of all those reported to the conservation division this week.

The big lake thus promised to be a paradise for those week end fishermen who liked crappie fishing. Each angler trying his luck there this week averaged a catch of almost two fish per hour, and 94 per cent of it was in crappies.

The only other spot of the ten surveyed which actually was labelled "good" was Charles Mills near Mansfield and Ashland. Here the catch averaged a little over one fish per hour for each angler and it was about evenly divided between bullheads (40 per cent) and channel catfish (35 per cent).

All the eight remaining lakes were labelled as just "fair," although the bass catch was said to be increasing at Guilford lake near Salem and Lisbon.

The field man making the report from Guilford lake noted that all fly fishermen were having outstanding success and the bass catch was increasing considerably.

## Harrison Dillard's Modest, Friendly Fellow

CLEVELAND—(AP)—Track coach Eddie Finnigan, who teaches a course in coaching at Baldwin-Wallace college, probably is the only professor in the country who uses a textbook with a picture of one of his pupils on the cover.

The book is the official track and field guide and the young man on the cover is Harrison Dillard, crack Baldwin-Wallace hurdler who ranks as one of this country's outstanding favorites in the coming Olympic games.

On the small Baldwin-Wallace campus they call him "Bones." But that nickname began in the days when Dillard was a gangly kid at Kennard Junior high school and it doesn't fit any more.

**At 24, he is a well-filled out trim five feet, ten inches tall and weighs 158 pounds. "Bones" is popular, friendly and known for his modesty.**

Dillard, the pride of Berea, shares the world records of 22.5 seconds in the 220-yard low hurdles and 13.7 in the 120-yard highs, with his clockings of 22.3 and 13.6 awaiting official recognition. He also holds or shares seven world indoor hurdling records and can run the 100-yard dash in 9.6.

In a track meet with Miami university at Oxford, Ohio, May 15, Dillard boosted his consecutive victory string from 64 to 67, breaking Greg Rice's record of 65 straight wins. He now has gone 70 races without defeat.

He will have a chance to increase that streak tomorrow when he competes in the Ohio Conference meet at Ohio Wesleyan.

Dillard sits modestly in a back row in Finnigan's class on coaching. Like many of the men at B-W, Dillard is in school under the GI bill of rights.

He was in the army for 32 months and spent 17 months overseas, mostly in an infantry division in northern Italy. Dillard chose Baldwin-Wallace because he didn't want to go to a big school. He is majoring in business courses and his ambition is to become a retail clothing salesman.

Dillard credits Ivan Greene, coach at Cleveland's East Tech high school, with teaching him the basics of hurdling, and Finnigan with developing his polish and speed.

Naturally, Dillard expects to make the U. S. Olympic team. He says there will be a "lot of good performers" in the London games, July 29 to Aug. 14, but he hopes to be there and do his share.
